REVIEW OF NOVECENTO DI ALESSANDRO BARICCO PDF WHATLOVEDOES

- Most people will know of the Queen Mary and the Queen Elizabeth as a couple of old cruise liners -- many may have stayed at the Hotel Queen Mary in the ship's now permanent home in the waters of California. For a brief time, these ships were converted to military use in World War II to transport troops. On one occasion, the Queen Mary hit the

British light cruiser HMS Curacoa, causing the ship to sink with the loss of hundreds of allied soldiers. Daniel Butler is a great historian and storyteller and he makes the wartime history of these two ships come alive. He doesn't start with the day the decision was made to use these cruise ships for military use. He sets the stage and gives the readers an understanding of the years leading to World War II -- not only giving a political and military background, but also telling us what was happening in the shipping industry that led to the construction of these two ships. To me the two most interesting parts of the book came when Butler tells about the most significant event of the Queen Mary's tour of duty (when the Curacoa was cut in two by her), and the most mundane (what it was like for a soldier to be transported on one of the Queens). If there is a weakness, it was here. I wish he could have had more first hand accounts from the surviving veterans who had crossed the ocean on their way to war. But of course, there are fewer and fewer such survivors still with us. Butler wrote this book just in time.

- This book was great! Not quite as good as the second but still great. I can't wait till the next one comes out!
