• I found this book to be priceless and valuable to every single woman that's out there...Funny thing is that I really only "fell in love" once in my life and became the "doormat nice girl" trying to please a man...Before then, I was always the dream girl in control..After many yrs of pain and suffering, I decided to give the suggestions in this book a try..I am happy to report that they successfully worked on my boyfriend on the time that was giving me so much heartache..However in time, I realized that I

deserved much better than "someone's leftovers" that I was the one that learned to let go and terminate the relationship for good..This book is all about maintaining one's dignity, self respect, and above all staying the person that you are throughout a dating relationship..I guess you can say that I learned the hard way, and Sherry's book was quite an eyeopener and I shall never ever give up my control or "let my life revolve a man" ever again...It's important for a woman to have her own interests and pursue her own goals in life, plus never giving up her friends, family, or activities that interest her..You need to remain the self confident person throughout the dating

relationship, and above all never tolerate any time of disrespect or mistreatment or abuse from any man...I say ladies,"stand up for yourself and read this book", it is well worth the read and you could possibly learn a couple of things as well...It's humorous, straight to the point, and I highly recommended to my friends who loved it,

and are using it in their dating relationship..By the way, I am happy to report that I am happily married and have used some of the techniques in this book..It really works, Give it a try!

- I was looking for a book that would help me to understand the American Society, and this was an excellent option to accomplish it.
