REVIEW OF HIGH PROBABILITY TRADING STRATEGIES ENTRY TO EXIT TACTICS FOR THE FOREX FUTURES AND STOCK MARKETS

- I have read the novel, April Morning, and i found it to be a fairly well written book. It really described the setting and feelings of the characters, but could have described Adam better. I felt like the author did a good job describing the action and setting in the book because when somthing tradgic happened, I felt sad and worried, and when something exciting happened, I felt happy and wanted to read on to find out what happened. The only problem i found with the novel was how he expressed the life of a teenager. I would have never know that Adam was 15 if the aithor hadn't

said he was. It almost seemed like Adam was a grown man. I understand that the time period was different, and children acted different, but what did Adam enjoy or do for fun? As a read about him, it made me a little confused that such a detailed book could leave out something so important, the details of the main character! So I was a little disappointed about that. But like I said earlier, the setting and the actions of the other characters were well described. So the lack of detail on Adam was made up by everthing else.

- This book is a very bitter-sweet book. It's about true, family love and what keeping someone special close to your heart. It's about getting along with hated siblings and having to "deal" with others!
