REVIEW OF HOEFNAGELS BIOLOGY TEXTBOOK

- Offshore for so long in his first tour. Then back for only four months, received minor wounds, got medals and "out" while others slogged through jungle in the real war.....Kerry is no hero. A biased book the

purpose of which is to win an election, not to give a true account of the war. Kerry came back and accused our soldiers of hideous acts of cruelty and murder; he testified to these facts while our men were still there. Some of them were even being held prisoners by the enemy at the time. How do you think they were treated by the enemy after hearing what our soldiers did to their people? A disgusting excuse for an objective book. SAVE YOUR MONEY.

- This is an amazingly helpful manual for a

problem that is affecting so many of our students. They can decode the words but are unable to make sense or understand what they are reading so they turn off and say that reading is boring! I read small sections of this book every day and couldn't wait to put it into practice. It has worked for English students at Year 7, Year 8 and Year 9. The Anticipation Guide idea has even been extremely valuable for a year 10 Literature class. I cannot recommend this book more highly.
