Moffat's first television work was the teen drama series Press Gang. His first sitcom, Joking Apart, was inspired by the breakdown of his first marriage; conversely, his later sitcom Coupling was based upon the development of his relationship with television producer Sue Vertue. In between the two relationship-centred shows, he wrote Chalk, a sitcom set in a comprehensive school inspired by his own experience as an English teacher. A lifelong fan of Doctor Who, Moffat has written several episodes of the revived version and succeeded Russell T Davies as lead writer and executive producer when production of its fifth series began in 2009. In 2008 he scripted the first The Adventures of Tintin film for director Steven Spielberg. He co-created Sherlock, an adaptation of the Sherlock Holmes detective stories. Many of the programmes upon which he has worked have won awards, including BAFTAs and Hugo Awards for some of his episodes of Doctor Who. Moffat was born in Paisley, Scotland, where he attended Camphill High School. He studied at the University of Glasgow, where he was involved with the student television station, GUST (Glasgow University Student Television). After gaining an MA degree in English from Glasgow, he worked as a teacher for three and a half years at Cowdenknowes High

Although Robert Louis Stevenson was a late Victorian, his work--especially *Treasure Island* and *The Strange Case of Dr. Jekyll and Mr. Hyde*--still circulates energetically and internationally among popular and academic audiences and among young and old. Admired by Henry James, Vladimir Nabokov, and Jorge Luis Borges, Stevenson's fiction crosses the boundaries of genre and challenges narrow definitions of the modern and the postmodern. Part 1 of this volume, "Materials," provides an introduction to the writer's life, a survey of the criticism of his work, and a variety of resources for the instructor. In part 2, "Approaches," thirty essays address such topics as Stevenson's dialogue with James about literature; his verse for children; his Scottish heritage; his wanderlust; his work as gothic fiction, as science fiction, as detective fiction; his critique of imperialism in the South Seas; his usefulness in the creative writing classroom; and how he encourages expansive thinking across texts, times, places, and lives.

Found Scotland as Science Fiction

If you're interested in science fiction but crave something with a little more intellectual heft than your typical space opera, give David Lindsay's *A Voyage to Arcturus* a try. Widely praised by critics as one of the most philosophically advanced science fiction novels, the book follows two intrepid spiritual seekers through a series of remarkable interstellar adventures.

[In Fact and Fiction](#) Luath Press Ltd

With visionary epics like *The Stone Canal*, *The Cassini Division*, and *Cosmonaut Keep*, award-winning Scottish author Ken MacLeod has led a revolution in contemporary science fiction, blending cutting edge science and razor-sharp political insights with pure, over-the-top interstellar adventure. Now MacLeod takes this heady mix to a new level with a stunning new SF masterwork--*Newton's Wake*. In the aftermath of the *Hard Rapture*--a cataclysmic war sparked by the explosive evolution of Earth's artificial intelligences into godlike beings--a few remnants of humanity managed to survive. Some even prospered. Lucinda Carlyle, head of an ambitious clan of galactic entrepreneurs, had carved out a profitable niche for herself and her kin by taking control of the *Skein*, a chain of interplanetary star-gates left

behind by the posthumans. But on a world called Eurydice, a remote planet at the farthest rim of the galaxy, Lucinda stumbled upon a forgotten relic of the past that could threaten her way of life. This book weaves in all the reasons why the residents of Scotland love to live here; landscape, beautiful scenery, an air of mystery and the great history of the land. Thompson conveys Verne's deep fascination with Scotland and takes the reader on a journey with Verne from his beloved Heart of Midlothian' to exploring in the Highlands. This book also explains how Verne's love for Scotland flooded into his literature. Jules Verne, pioneer in the science fiction genre, wrote world-famous books including Journey to the Centre of the Earth and Around the World in 80 Days. His literary legacy is still celebrated today, his books have scarcely been out of print and have spawned a host of films and TV adaptations. BACK COVER I still see, as in a vision, beautiful picturesque Edinburgh, with its Heart of Midlothian, and many entrancing memories; the Highlands, world-forgotten Iona, and the wild Hebrides. JULES VERNE, 1895 Jules Verne's first visit to Scotland lasted a mere five days, but that was enough to instil

within him a lifelong passion for the small country; a passion which had a profound impact on his literary work and fuelled his creative imagination. Two journeys, 20 years apart, and five novels set partly or wholly in Scotland, show how the influence of the country rippled all the way through his life. Jules Verne's Scotland guides the reader through Verne's journeys, first in 1859 and again in 1879, where he witnessed the majesty of Edinburgh and the industrial buzz of Glasgow together with the unspoilt beauty of the Highlands and Islands. As well as providing insights into Verne's travels in Scotland, Ian Thompson provides analysis of novels such as The Underground City and The Green Ray that immortalise Scotland in their pages. Thompson evokes the history of the land, the rugged scenery and the enduring spirit of Scotland, which remained in Verne's memory all his life and was evoked with passion in his storytelling.

REVIEW OF SCOTLAND AS SCIENCE FICTION

- Fighting in Hell is one of the top books I have come across in researching the War against the Soviet Union under Stalin in

1941 - 1945. One of the great mysteries in history is how the Germans were unable to defeat the Soviet Union when in 1941 they had captured, wounded or killed approximately 3 M troops. You would be correct to assume that these Russian troops were their best ones and and they were lost to the "Motherland". So how did Stalin and the Soviet Union hang on to defeat the Axis by 1945 ?After Operation Typhoon was stalled in front of Moscow in Dec of 1941 the German army regrouped and won even more victories in 1942 up until their debacle at Stalingrad. The German victories in 1942 were almost as devastating as those attained in 1941 such as the 2nd battle of Kharkov, the destruction of 2nd Shock Army near Leningrad, Eric Manstein's capture of Sevastopol and the capture of 200,000 troops in the Kerch Peninsula. These were devastating blows that would have cause any "normal" nation to collapse. But the Soviet Union was not a typical nation. It could sustain blows no other nation could sustain and still fight. Stalin had started industrialization in 1927 and their dominant focus was the building of tanks, artillery and other weapons. They had the best tanks T34, KV-1 and the KV-2, large calibre cannons and a huge fleets of fighter aircraft. Stalin though miscalculated. He placed most of his airforce close to his western borders and these were lost while on the ground to the Germans in the first week of Operation Barbarossa. After the Soviets lost 90 % of their air force the Germans were able to use their Stukas to annihilate superior Soviet Tanks as they approached the Germans. Even though the Soviets had 30,000 tanks to the Germans 3000 tanks the Soviets did not mass their tanks properly nor did they have protection against the Stukas and other German bombers. The Soviets were only taught to attack

and methods for defense were not deemed important as the Soviets were not initially flexible. But the Soviets had a resource the Germans did not have. It was a nation led by fanatical Russian commissars mostly from the Soviet cities who would shoot any non-compliant soldier without reservation. It was a nation led by fear with a threat to a bullet to the head to anyone who disobeyed orders to do what they thought was required. The commissars were the nerve centers and means to motivate the Soviets to make human wave attacks which were dependent upon the Germans running out of ammunition. Hence the Soviets would grab any man from 16 - 70 in age to take bullets in front of their main troops who came after. They were totally ruthless. Also the Soviets had NKVD "blocking troops" who would fire on the Soviet soldiers who turned back from horrendous German machine gun fire with their M34 and M42 machine guns. The Soviets would sometimes charge the Germans while under the influence of huge amounts of vodka. Yes, the Soviets eventually broke the German East armies but at a horrendous cost. Stalin owns the credit for this victory which destroyed the flower of this Soviet generation. It was a Pyrrhic victory for the them which some experts say led to the collapse of this "evil" empire in 1991. This is what "Fighting in Hell" describes. The way the Soviet Union fought under Stalin who had no care one whether his troops died or lived. Because of the massive surrenders in the summer of 1941 Order No. 270 was issued by Stalin who decided that if any Soviet surrendered then they were a traitor and if they came back to the Soviet Union they would be sent to the Gulags to join their families. So the Soviets surrendered in hundreds and thousands and many of these joined the Germans to fight against

their fellow countrymen. Even a Lt. General Vsalov, Hero of the defense of Kiev and Moscow went to the German side. Vsalov betrayed his Soviet homeland after being betrayed by Stalin in the defeat of the 2nd Shock Army in the summer of 1942 near Leningrad. I cannot ever recall a similar case of a large mass of soldiers and officers turning on their homeland in any other war. Their hate for Stalin overrode their fear of him because they knew because of Order 270 they would go to the Gulags if captured by the Soviets. The captured Soviets choice was either starvation or collaboration for the Germans. When these unfortunates were recaptured by the Soviets in 1944 and 1945 they were either killed outright or sent to the Gulags. Stalin had no mercy. Fascinating and horrifying reading at the same time. The Germans were well-trained and for the most part well-led by their officers. They kept their heads thru most of the war and inflicted unimaginable casualties. However Stalin was able to overcome superior German tactics and command of the air by using more and more soldiers. Eventually he would mobilize 18 M soldiers to overwhelm the Reich. The Germans felt even in 1944 if they could just keep killing the enough Soviets they would eventually run out of soldiers. Not quite. But after losing 27 - 30

M people because of the ruthless ineptitude of Stalin it is possible to argue that in the long run the Germans won and prevented Western Europe from becoming Sovietized. Today Germany is a strong nation and the Soviet Union which collapsed in 1991 has the weaker economy. You could argue that Stalin in his zeal to spread the Soviet way of life and bring happiness to all people miscalculated. This book and former Soviet GRU agent Victor Suvorov 's book "The Chief Culprit" go hand-in-hand in explaining how Stalin destroyed his country in profligate attacks of his citizens in human wave attacks against German well entrenched positions. Fascinating reading and yet unimaginable reading for the committed Soviet German conflict reader.

- Unlike most books on photography or photographers, this focuses more on the thoughts and relationships of Adams rather than an actual narrative of his life. The result is unexpected enlightenment: the core of the man including his attitudes, politics, and relationships. The reader also finds that he is drawn to focus on his own insights on feelings, attitudes, and creative essence. It is very easy to come a point where one attains the feeling he actually knows Adams although relatively little is actually stated in straight terms about him.
