REVIEW OF GEEK DAD AWESOMELY GEEKY PROJECTS AND ACTIVITIES FOR DADS AND KIDS TO SHARE

- I thoroughly enjoyed Camus's *The Stranger*. It didn't take that long to read, but gave me many interesting things to think about long after I had finished it. Although some see *The Stranger* as an "easy to read" novel, the depth of the main character is astounding. Camus uses Meursault to express his questions about how societies come to be, and how they are allowed to exist. The society in *The Stranger* condemns Meursault for his crime based off earlier events that do not reflect his real character, and are unable to judge his actions properly. It is also thought that Meursault doesn't have any emotion, which is proven to be untrue on many occasions, such as the courthouse scene and the last scenes of the book. If the reader is simply taking every word for its literal meaning, the book is indeed quite simple. However, on closer analysis, the novel contains Camus' questions about society, as well as the analysis of a character that is more unique than any other. The only downfall to the novel is that most people only read the translated version of the book, which cuts out some of the original ideas Camus may have wanted to use. Overall though, the novel is definitely more complicated than meets the eye, and invites the reader to experience something completely different from other novels.

- Albert Camus' novel *The Stranger* is a wonderful piece of literature that takes you into the depths of a human consciousness that embodies the

essence of existentialism. Meursault's, the main character, plight is caused by his obvious differences with society and societies morals. Society as a whole has a belief in a divine being that guides their life and gives bounds to their actions. They believe they are here for a reason and this keeps them sane. Meursault does not share this belief and he believes that life is meaningless and therefore he believes it does not matter what he does, he can either do something or not do something. If you like book about spicy love affairs and books that require little though this book probably isn't for you. If, however, you like a book with a clever idea written by one of the literary worlds great writers

then this is the perfect book. The Stranger is an absurdist work that shows us a person who is so immersed in existentialist beliefs that he actually feels no emotion; he lives solely for physical pleasure. This lifestyle is only not hedonistic because Meursault doesn't really care whether or not he does something. He can either go to the beach or not go to the beach, either way he is fine. The reason for this behavior is that Meursault believes that life is meaningless so it really makes no difference in the scheme of things whether he does one thing or does something else. This entire thought-provoking concept creates a great novel that people of all beliefs will enjoy.
