So, if you're searching for a fascinating read, Bloody Bones Anita Blake Vampire Hunter 5 is definitely worth thinking about.

## REVIEW OF BLOODY BONES ANITA BLAKE VAMPIRE HUNTER 5

- Because of the ingenuity required to merely have the idea for this book, C.S. Lewis showed what a brilliant and creative mind he had. This is one of the few books that insightfully delves into answering the question "What does Satan want our lives to be like?" Lewis answers this question by writing from the point of view of a demon--so the language we are used to seeing in

Christian books is reversed. God is the Enemy, people are encouraged to end up in Hell, and virtues are turned to vice. It is fun, convicting, poignant, and delightful all at once. While reading through it, I found several times that subtle lies Screwtape (the guide to a younger demon, Wormwood) was encouraging Wormwood to feed into his human's consciousness, are lies that have subtly made their way into my mind as well. So this book definitely has the capability of convicting of sin, and of revealing incorrect paradigms that we hold about what our lives are about. What I enjoyed most about this book was that it was almost entirely focused on heart condition as opposed to action. As an experienced demon, Screwtape knew that to really turn a human

to the dark side you need to focus on his view of the world and his internal motives. This book is short, and it's well-worth at least one read through. As one additional bit of info: if you sometimes have difficulty understanding C.S. Lewis' writings, or just worry that you might be missing something, there is an older version of this book with a study guide by Walter Hooper in the back that is very helpful.

- This is an excellent book, exactly what you would expect from C.S. Lewis. The spiritual insight set forth in this book is astounding. It unveils demonic tactics in a truly unique way that captures the interest of the reader.
