This book is the first to take an in-depth examination of the breadth and scope of exhibitions, trade fairs and other industrial events as a marketing tool or channel. Industrial Events are planned events that are staged with the primary aim of marketing businesses, industries and products. This may lead to direct sales through these events, as well as the development of brand image or building brand awareness; penetration of new markets; trials of new products and knowledge diffusion. These business goals might be future-focused, with meetings of strategic players from across an industry or sector contributing to the shaping of future innovations and development. Industrial events act as a marketplace, but rather than seeing them as temporary or isolated activities, they can be understood as cyclical clusters. This is a multidisciplinary book written by an international group of leading academics, offering a wide range of case studies that feature countries such as the United Kingdom, United States of America, Japan, South Korea, Saudi Arabia, Australia and New Zealand. It will appeal to students and researchers in the fields of cultural studies, history, tourism, sociology, economics and management

Investigations on the Legendary Citroën DS Crowood

In this new view of the Citroen story, automotive/aviation writer and design specialist Lance Cole investigates not just the details of the cars of Citroen, but the aeronautical and cultural origins that lay behind Citroen's form and function. The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history. Using interviews, translations, archive documents and specially-commissioned photographs, the Citroen journey is cast in a fresh perspective. It explains in detail the influences upon Citroen design: Voisin, Lefebvre, Bertoni, Boulanger, Mages, Opron and recent Citroen designers such as Coco, Blakeslee and Soubirou. As well as all the men of the great period of 1920s-1970s expansion, it also cites less well-known names of Citroen's French engineering, design, and influence such as Cayla, Gerin, Giret, Harmand, Dargent and others, to give a full picture of Citroen heritage. The book provides in-depth analysis of all major Citroen models with an engineering and design focus and profiles key individuals and cars up to the present day and Citroen's 'DS'-branded resurgence. It features many newly commissioned photographs, rare archive drawings and interviews with Citroen owners. Researched amongst leading Citroen experts and restorers, Lance Cole provides a fresh perspective on the Citroen car manufacturer, its design language and the legacy of its extraordinary engineering which will be of great interest to all Citroen and motoring enthusiasts. Superbly illustrated with 329 colour photographs, many newly commissioned along with rare archive drawings.

Volkswagen BusHistory of the Volkswagen Bus. List of the Volkswagen Bus. The concept for the Type 2 is credited to Dutch Volkswagen importer Ben Pon. (It has similarities in concept to the 1920s Rumpler Tropfenwagen and 1930s Dymaxion car by

Buckminster Fuller, neither of which reached production.) Pon visited Wolfsburg in 1946, intending to purchase Type 1s for import to Holland, where he saw an improvised parts-mover and realized something better was possible using the stock Type 1 pan. He first sketched the van in a doodle dated April 23, 1947, proposing a payload of 690 kg (1,500 lb) and placing the driver at the very front. Production would have to wait, however, as the factory was at capacity producing the Type 1. The first generation of the Volkswagen Type 2 with the split windshield, informally called the Microbus, Splitscreen, or Splittie among modern fans, was produced from 8 March 1950 through the end of the 1967 model year. From 1950 to 1956, the T1 was built in Wolfsburg; from 1956, it was built at the completely new Transporter factory in Hanover. Like the Beetle, the first Transporters used the 1100 Volkswagen air-cooled engine, an 1,131 cc (69.0 cu in), DIN-rated 18 kW (24 PS; 24 bhp), air-cooled flat-four-cylinder 'boxer' engine mounted in the rear. This was upgraded to the 1200 - an 1,192 cc (72.7 cu in) 22 kW (30 PS; 30 bhp) in 1953. A higher compression ratio became standard in 1955; while an unusual early version of the 30 kW (41 PS; 40 bhp) engine debuted exclusively on the Type 2 in 1959. This engine proved to be so uncharacteristically troublesome that Volkswagen recalled all 1959 Transporters and replaced the engines with an updated version of the 30 kW engine. ARPI, 150 seconds after take-off. There were handling issues and the pilot-in-command had suffered a heart attack. History of the Volkswagen Bus. List of the Volkswagen Bus BoD - Books on Demand

En 1947, nait le Citroën Type H, au lendemain de la guerre. Pourquoi H ? Non pas en référence à la Bombe H, lâchée par les Américains sur Hiroshima deux ans plus tôt, mais parce que H est la huitième lettre de l'alphabet : or ce véhicule est le huitième construit dans l'histoire de Citroën ! Mais dans le langage populaire, tout le monde l'appelle "le tub" car le Type H a un ancêtre un peu mystérieux, construit à quelques exemplaires homologués en 1939, le TUB (Traction Utilitaire Basse). Le Type H, véhicule utilitaire indispensable à la France qui se reconstruit, conserve du TUB le principe de la traction avant, la cabine avancée, le plancher plat pour un chargement bas et la porte coulissante. Sa caisse monocoque en "tôle ondulée" s'inspire de l'avion allemand Junker. Sa robustesse et sa rigidité seront vantés dans quelques catalogues et bientôt Citroën H des villes et Citroën H des campagnes sillonneront la France. On devine sa silhouette singulière sur les cartes postales à Issoudun ou devant le Moulin Rouge à Paris. Boucher, poissonnier, boulanger ou maraîcher, il est sur tous les marchés de province et livre les produits alimentaires dans les hameaux et villages de France. Véhicule jaune de la Poste, rouge des Pompiers, bleu ou noir et blanc de la police, c'est le "panier à salade" ! Il parcourt aussi le monde transportant des familles de randonneurs intrépides. Le type H est reproduit en jouets depuis les fameux JRD en tôle de 1953 jusqu'à toutes les séries actuelles de Type H publicitaires. Le H se donne en spectacle, véhicule de Fantômas, de la police en France et en Hollande, ou de brocanteurs comme "Louis la Brocante". On en fait des cendriers en céramique, des fèves des rois, des porte-clés. Nous n'avons pas résisté à le faire entrer en pastiche dans des toiles de Van Gogh, de Millet ou de Fernand Léger ! Enfin le "Tubik", concept car, lancé en 2011, est un clin d'oeil au Tub !

REVIEW OF CITROEN H VAN

• The Hobbit: Is it Such a Small Adventure After All? Book Title: The Hobbit How would you feel if 13 dwarves just popped right into your house, called you a burglar, and whisked you away on some wild adventure that you have absolutely no interest in? And what's worse, your friend Gandalf the Grey has helped them. That's exactly what happened to Bilbo Baggins in the book, The Hobbit. The plot of the story is amazing. It follows a story line that is so imaginary, it almost isn't imaginable. The main hobbit in this story is Bilbo Baggins. Bilbo is whisked away on a dangerous journey with 13 dwarves, determined with the task of recapturing the grand dwarf city. Thorin, the greatly respected dwarf king, is determined to be the King Under the Mountain, as his grandfather and great-grandfather once were. Smog the Dragon has captured the ancient dwarf city and has destroyed the once prosperous city of Dale, the mortal man's city. Thorin and Co. (Bilbo and the 13 dwarves) are determined to kill Smog (well,

at least the dwarves are. Bilbo thinks this is all a wild goose chase!) and recover the lost treasures. But before they get to the mountain to destroy Smog and recover the lost treasure, they must get there. On the long way there, they drag themselves into mortal danger many times. Some of these dangers are hungry trolls, giant spiders, and an entire underground kingdom of goblins. There are many more, but it would take a full page to name them. This book was extremely good, especially if you like books with a lot of suspense in them. Tolkien uses intricate detail and vivid words. I could just imagine every part in the book as if I was there. Bilbo is a touching character that we all can relate to. Poor old Bilbo just wants to be left alone and wants to have everything just so expected and predictable. But on the other hand, he loves adventures (sometimes) and he loves surprises. But he also just wants a good pipe to smoke, a comfortable hobbit hole, and some good company. And surely we can all relate to that!! I recommend this book to children and adults of all ages. Some parts of the book are a little intense, such as when the Wargs try to eat the 14 travelers plus Gandalf in one part. Otherwise, this is a touching, loving, humorous book. Although, you might not like the book so much if you don't enjoy action/adventure books. In conclusion, this book is wonderful. I really loved it. If you decide to read the book, I think you'll really enjoy it too.

• It has been many years since I first read this, 1967 to be exact. I loved it then and still do.
