REVIEW OF CITROEN H VAN

• This book is not one that you quickly get through. It is very slow and dull in both story content and happenings involved. I would not and have not recommended the book since I purchased it. Actually, I threw the copy I purchased out because I did not want to subject anyone else to the boredom! If you are one that likes slow moving and unreadable books, then this is the one for you. I did not find it the list bit funny or have any true emotion over the book at all -- except for the fact that it is a waste of money!

• I'm not sure why but this was a really enjoyable book to read over the summer. Many criticisms have been levelled at this book. However, I feel the reviewer of December 2, 2005 in particular has hit the nail on the head. It is not easy reading and is definitely not for the faint-hearted and prudish. As the above reviewer points out, this trilogy is for thinking people and while Burroughs' devastating exposure of human lust and depravity may turn some people off his work, to my mind he is much more open and honest in his assessments of 'the human condition'. So if people are turned off by its homoerotic lewdness or find other aspects of the narrative repulsive (such as all the hanging scenes which are in fact an exaggerated indictment of capital punishment which he was avidly against), that's fine, but to my mind they are missing out on seeing the bigger picture - the real messages and themes underlying Burroughs' work. First, know what an artist is trying to do. Some artists like to shock because that is the only way they will get

their points across to the lay audience. This might be a really inappropriate example but remember the killer from Seven (Kevin Spacey) - he said, "sometimes you have to hit people over the head with a sledgehammer for them to notice" - well Burroughs was all about doing this metaphorically. At times it reads like a post-holocaust (divine?) comedy, at other times like a jump-through-time pulp novel and at other times like a moralistic diatribe. Each of the cities corresponds to one in which Burroughs was firmly ensconced for some considerable length of time. I'm pretty sure that at least two

of the real cities referred to obliquely in the text are Mexico City (remember the William Tell incident?) and Tangiers (where Kerouac typed up his Naked Lunch novel). The third city could either be Paris (where he lived for a while with other beat writers like Gregory Corso) or more likely New York City. All in all though, this book, in my opinion, is pure art at its best - challenging, confrontational, notorious even! and above-all, absolutely visceral and riveting reading.
