In these personal stories, 45 Ohio mothers open their hearts and share what it feels like when your son or daughter leaves home to fight a war. Some were stunned to learn one sunny afternoon that their "baby" had enlisted in the Marines. Others had long been familiar with military life. But all knew their life had just changed the day their child called and said, "Mom, I'm being deployed . . ." They discovered the strange mix of pride and fear. The anxiety of not knowing exactly where in Iraq or Afghanistan your son is, whether your daughter is facing mortar fire or enduring heat and boredom. Elation at the arrival of the briefest postcard or email message. The daily dread, when returning home from work or a trip to the grocery store, of seeing a government car in the driveway and two soldiers at the door . . . Any parent who reads these stories will feel their power--and will gain a greater understanding of the sacrifice made by parents as well as their children in our military service.

REVIEW OF RUGBY ACADEMY COMBAT ZONE RUGBY ACADEMY 1

- Perhaps it's because I've read so many of Dr. Sowell's books and columns, but I'm beginning to see a lot overlap in what he writes.1. He has talked about the role of navigable rivers in economic development several times before-- not least in his "Migrations and Culture" book among other places (columns).2. The notion that the amount of "dead capital" that is sitting in places like Haiti and other third world countries that cannot be erected because of poorly functioning legal systems is not new either. This is something that was covered at great length in William Easterly's book "Misadventures in the Tropics" and (I believe) in "Wealth and Poverty of Nations" (David Landes). Both of them are great books. Of course, Dr. Sowell writes about them in an interesting and easy-to-understand way, but the book feels very much like a secondary source since I know exactly where these arguments come from.3. A lot of the data on differences in income between different ethnic groups was trotted out from older works (but updated), so one gets a strong sense of déjà vu when reading this. Overall, it's a good and very readable work. It is worth reading for people who never bother to fill in their ideas with specific case studies or case examples of what *actually happened* under certain circumstances. His discussion of health care economics was also very interesting and made the whole book worth its purchase price. So, on the strength of that alone, I recommend the book.

- this nancy drew is an exiting adventure. nancy is asked by a detective to find the message in the hollow oak. this is a very exiting book! nancy faces danger the moment she faces her eyes on the dangerous kit kaddle. he will stop at nothing to stop this sleuth in solving the mystery. he will even try to kidnap people from the archiologist dig where nancy is staying to search for the hollow oaks treasure. this book gets a little unexiting in some parts but i loved it. the last 4 chapters really held my interest. this is a very good book that i recommend you buy!
