REVIEW OF AIRPORT PLANNING 26 MANA

- All I can say is that this is a nice nearly complete compilation of his work. A must read in my educated opinion.
- My late husband And I enjoyed this book, and especially liked the illustrations.I found much practical information that I wish I or my caretakers had known at certain times in my past.When the authors present information that may be hazardous, they identify it as such and offer cautions or alternatives. If you don't want to put automotive fluids on your altar, use product labels or even cards with chemical formulas for the fluids. If you don't want to invoke a dragon to protect your car, do something different, for Hel's sake!!I'm not into body mod, myself, but found the section on clothing useful. Besides, temporary tatoos work as well as ink.Using clear, charged vegetable oil to mark public areas with protective sigils is not 'graffiti' as one reviewer suggested. Using already existing graffiti for an altar or personal sigil is preferable to making any more, however.Author Michael Cochrane (Naked Magic) says that if you can name something, you can workWith it. Why can't there be a spirit of parking spaces, trashpicking, The Inner Voice, etc., by whatever name you choose to give it? Incidentally, there's great power in play and humor. Advice to critics: get some.In other words, take whatever you can use,

if anything, and leave the rest. For the record, I liked City Pagan, also, even if it wasn't quite the hoot.
