### 3 How are airports planned

In trailer/sailer design every increase in length equals harder launching and recovery work. At 23'6"-7.15m hull length MANA 24 sits between our TIKI 21 and TIKI 26 designs (both very popular trailer sailers), with easier launching and handling like the smaller TIKI 21, but an interior space close to

that of the Tiki 26.

## **REVIEW OF AIRPORT PLANNING 26 MANA**

- I thought this book was a great book!Tells you what you want to know about ww2 and in a fun way wich I as a young reader like.What I most liked about this book was that it was very differant to other books because you usely know what's going to happen but Taffy was very unpredictable! I would definetly recomend this book to a friend because it was a thrilling adventure novel ,and if you were looking for a history novel that gives the factd Taffy of Torpedo Junction is the one!!

- This book will definitely help you get started building Struts applications. It goes into great detail when explaining the config files and each of the struts components. It also gives good design approaches to help you create a good Struts app.It doesn't give you that many examples about the tag libraries but this book isn't about tag libraries.I will definitely recommend this book to anyone who wants to learn and build Struts applications.
