REVIEW OF STEVENSON OPERATIONS MANAGEMENT 11TH EDITION SOLUTIONS MANUAL

- who ever wrote this dumb confusing book is in a mental state of mind! Fahrenheit 451 is a overworded description of a fireman who lives on rebellion! It is a bad influence on the young people of the world. THIS BOOK SHOULD BE BURNED!

- Ray Bradbury is amazing. Fahrenheit 451 is an amazing book. So amazing in fact that I did my senior research paper on it. The plot is about Guy Montag (protagonist) learning about censorship and the death that accompanies it. The

symbolism is very deep in this book. For example, the story mentions burning books, which is linked to destroying knowledge. Through intricately woven twists, it becomes apparent that Bradbury wants us to realize that knowledge and individuality are the keys to being alive and that when those are lost, regardless of our medical condition, we are dead. The obvious theme is of course censorship, but if you're willing to

read it carefully and give some serious thought as to what's being said, you can see a much deeper message. This book should be required for admittance to society. Read it. You won't be disappointed. And don't pay any attention to those negative reviews - they are the people that this book talks about: the morons in our society who don't see the folly of ignorance.
