REVIEW OF BIOMEDICAL ENGINEER RESPONSIBILITIES

- This is one of the best books I have

read in my life. A picture of man's mental scenery by a very accute observer. A short book written with a lot of wisdom. An inspiring source of ideas and understanding for people for whom knowledge is important!

- An historic novel that's heavy in

history, but unsatisfying as a novel. The history may be accurate, but it's doubtful that the detail presented is anymore than a few facts and a lot of conjecture. There are some interesting characters, but the conclusions of many of the subplots are left dangling. The book moved well and held my interest.
