REVIEW OF AUDI OWNERS MANUAL

- Carson Mc Cullers has exposed to us through this novel, the loneliness we all experience, no matter how full our lives may seem. The story involves the lives of some wonderful characters. Set in the Deep south in the 1930's, John Singer and Antonapoulos, both deaf mutes, and seemingly life partners, are separated when Antonapoulos is sent to an asylum. Singer takes a room in a boarding house owned by the Kelly family and meets Mick Kelly. A tomboyish 13 year old girl with a passion for music and culture. Being the youngest of the girls in the family, much of the responsibility is put upon her to not only watch, but basically raise her 2 younger siblings. With the help of Portia, a simple black woman employed by the Kelly's. Who's father Dr. Copeland, struggles with the oppression of his people. Always battling within himself and his children. A man well educated and successful being a black doctor, yet all of his children a disappointment to him. Their lack of interest to not only better themselves, but also their lack in his cause. Jake Blount, a drunken, outspoken man teams up with Singer in a relationship left empty for both he and Singer. Both being very well read people, he and Singer can't seem to connect as Singer and Antonapoulos did. Biff Brannon, a local restaurant owner, unhappy in his own marriage that has run dry, has only a few fond memories to reflect on when his wife passes away. And a new life which he looks forward to is never quenched. As Singer goes on with his life quietly, each of these characters are drawn to him, each for their own reasons. Searching for something that none will find. Mc Cullers writing style is very enjoyable. Each chapter almost entirely dedicated to each character, giving you a great sense of who this character truly is and what they are feeling. Also each chapter seems to be a little story by it's self with in this story line. This book is a fast read, easy to understand, and very clarified. Carson's use of southern black dialect is truly an asset in giving you a great feel for the south. I do recommend this book, it's a wonderful insight to a feeling deep within each and every one of us.

- As far as an enjoyable reading experience, I preferred Dawn Powell's Dance Night, which is about a similar time and place. But there is no doubting the power of this book. It follows several intertwined characters -- a cafe owner, a young puberty-aged girl, a drunken socialist agitator, a scholarly black doctor... And a kind, mute young man, almost Christ-like in the way he is perceived by others and who is at the very core of the tale. Each of these people are defined by a special vision that is at the core of their lives -- they are driven: for knowledge, for art, for mankind, for freedom and respect, for love of another. To some degree, I found the story contrived despite its gritty, unforgiving realism -- almost like a mathematical formula. But after a while I stopped thinking about that contrivance and was gripped by the story itself. It is clearly a product of the Depression and the threat of War and the social and racial injustices of the 1930's, so it helped me to experience that time. The protagonists in this story are all so driven by, and truthful to, their inner visions, it made me think: What is my vision? And am I truthful to it? As flawed or limited as each the central characters are, each became admirable as the story progressed -- each supremely driven by love and caring in their own way.
