## **REVIEW OF DISTRIBUTED CACHING IN SMALL CELL NETWORKS ACCUEIL**

- I've had mine for about a year now and

the only thing i wish it had was reference. I really wish that. Otherwise it has good sized print, not the 12.75pt that the Giant one has but a bit smaller. I used to always buy the leather bound but i found that i prefer hard-cover because it's easier to grab since it doesn't spill out of the hand as easy. I like it and i'm getting another one :), one for the lunch breaks that stays in the car and the other one for everything else.

- Got this book for a backup homework book. It is written in many pages with ink, sometimes making it hard to read. But got it really cheap ans serves its purpose.
