REVIEW OF HONDA G40 ENGINE

- This is such a memorable book I can still quote it years after reading it. For example, a cop puts someone in a holding cell. He comes back later and can tell instantly if the person is guilty or not. How does he know? Read the book! Or how does a cop look at the home of an 80-year-old man and know he's a child molester? Then there's the story of the mobster who actually says, "It's so hard to find good help." One cop tells what child molesters say when they're captured, how they sickly view the relationship with the child. There's the

capture of a child molester after a kid describes lots of yellow doors and seeing a plane through the ceiling -- this book just captures the attention with lots of quick, compelling stories. Very well done, worth reading!

- Arthur Miller's *The Crucible*, a play in four acts, deals with the witch-craze in Salem in the 17th century. A minister from Salem discovers a groups of teenage girls dancing naked around a fire in the woods. As the girls are aware of the fact that they will have to face severe punishment for their action, they claim to have been possessed by evil spirits. This causes a major outcry in the Puritan community of Salem and a court is formed to deal with and investigate the accusations of the girls in further detail. At first, only a few people are

accused of witchcraft but in the course of events over a hundred people are accused of bewitching the girls. Even people with a very good reputation who have never acted against the will of God or the community are sent to prison due to suspicion, gossip or denunciation. It is clear that in many cases the girls accuse people with whom they have had some kind of problems or against whom they hold some sort of grievance. Abigail Williams accuses Elizabeth Proctor, her former employer, after having been dismissed from work by Mrs. Proctor. Abigail was the Proctors' servant but had to leave their home because Elizabeth Proctor suspected her of having an affair with her husband. Elizabeth Proctor is sent to prison but not hanged immediately due to the fact that she is

pregnant. As John Proctor tries to come to the rescue of his wife, he himself runs into difficulties because he is suspected of undermining the court. Some of the accused avoid execution by "confessing" that they have a pact with the devil but 19 people are hanged. John Proctor does not want to confess a crime he has not committed. However, he changes his decision because of his wife and his three children and decides to sign a confession in order to save his life. But he immediately regrets his decision, tears up the confession and is brought to his execution. *The Crucible* is a very impressive and powerful play. It illustrates the irrationality of the people which is strongly connected with their fears and superstitious beliefs. Miller manages to show that the people really

believed that what they did was right and only done to protect a community of god-fearing people. By reading *The Crucible* you can learn to understand the point of view and the world of the accusers. You begin to understand that the actions of the Puritans are very logical in their own way. You start to understand the beliefs of the accusers and even develop a kind of sympathy for

them and their fears. On the whole, *The Crucible* is easy to read and can also be read in one setting. The plot is easy to follow, extremely exciting and keeps you in its grip from the first to the last line. I believe that *The Crucible* is hugely recommendable for everyone who is interested in understanding the witch-craze and the point of view of the accusers as well as the accused.
