REVIEW OF TIPTRONIC VS MANUAL TRANSMISSION

- It's almost impossible to dislike Zadie Smith's writing because she's very funny and has a fine handle on character; still, there were so many strange flaws in this novel I kept commenting on them out loud with the friend with whom I was travelling while I read Smith's third novel. She seems to misunderstand entirely the way the American tenure system in private colleges works (it is impossible Howard Belsey would have the institutional authority and privileges he has and yet be untenured), and she also seems to have done little research on things as simple as American labor laws (a major subplot about one of the characters being forced to work by a megastore on Christmas Day is another impossibility in the US). And her re-working of many of the basic

plot points of Forster's HOWARDS END are simply unnecessary, and force Smith to create all kinds of plot contrivances to allow the truth of Mrs. Klpps's bequest to come to light. The novel is most valuable as a study in character, and here Smith does not fail to delight: the characters of Howard, Kiki, and Zora Belsey are so funny and finely drawn that even with all the errors and elaborate plotting coincidences I've still recommended this book to others already. Yet it is a bit of a puzzle why by her third novel Smith should be making such elementary errors in her plotting research.

- In elegant yet simple prose Garvey gives us a glimpse into the colorful and sometimes tragicomic world of Marian apparitions. If John Kennedy Toole had written a piece of journalistic non-fiction, it would have resembled this. A brilliant piece of Americana.
