REVIEW OF CONVEX ANALYSIS AND OPTIMIZATION

- "In 1820, at seventy-seven years of age, Thomas Jefferson removed the six testaments from his shelf, where they had been sitting for a decade and a half, and carved out a Gospel for himself, one whose witness he could respect and whose message he could understand." Yes, Jefferson literally cut and pasted the Bible, nixing the supernatural parts and leaving only Jesus' teachings in a new arrangement. The history behind it and the book itself are interesting, but the content is misguided and harmful. Jesus' life revolved not around his teachings but his identity. A prime example is the fact that Jefferson's text ends with a dead Jesus laid in a tomb. If Jesus was wrong about being the Son of God (the core of his teachings) and never resurrected, how reliable could his doctrine really be? This edition includes: - Background on Jefferson's text written by Forrest Church. - Few pages of Jefferson's actual cut-and-paste copies [fascinating] - Jefferson's entire carved text - Index of used New Testament extracts Read with caution.

- This book is historically important, and used in US military schools as a template of good values. This book is merely a cut and paste of most of the "interesting values" in some of the gospels accepted and selected by the church. I do wish that

Thomas Jefferson could include the recently discovered gospel of Judas, and also the gospel of Marie. This book should in my view be seen in the historical context of the late 18th century: the Christian church was much discredited by the abuses of the inquisition, and large use of abuse, torture and killing of opponents which were really political opponents. A few examples: In England John Tyndale (his only crime was to translate the bible in english, re-edited by his friend Cannondale, it became, with political help from the king, the "King James Bible") was burned at the stake, in France Calas was executed for just not align themselves with the official (and very lucrative) policies of the catholic church. In my view, again, a good book in the historical context. From a theological point of view, unless I missed something, there is nothing really new, just an attempt to create a simple short document, much easier to read than the whole set of the gospels. Here Thomas Jefferson makes the case, that religion without ethical values is mere superstition. But if you wish to know much more about Thomas Jefferson on religious issues, suggest that you also read his writings: many letters including to members of the church will clarify his strictly monotheist, unitarian christian point of view. So byzantine discussions about the theological value of this book, seems to me un-necessary and vaines: christianism like most large religions has many schools of thought, and when disagreement are non violent, then, they are acceptable ones... But the extreme violence that the Christian church unleashed against any unorthodox theologic view, from the twelve century (first crusade 1095) to the present times, must make dissenters

cautious. Suggested related reading: (beside the Torah and some accepted version of "the new testament" (there are many, the ones translated from the Greek language are usually accepted from being of better quality...)).1) The Writing of Thomas Jefferson.2) "The book of sins".3) "Misquoting Jesus".4) The Gospel of Judas.5) The Gospel of Mary.6) The Chouraqui Bible (In French, my Andre Chouraqui, mayor of Jerusalem).7) "The decline and fall of the Roman empire" by Edwards Gibbons.
