The one-of-a-kind narration style, relatable characters, and plot spins make it a rewarding addition to your bookshelf. So, if you're trying to find an exciting read, Astra Z18xer Engine is most definitely worth taking into consideration.

REVIEW OF ASTRA Z18XER ENGINE

- This book lacks the personal anecdotes from enlisted men that would have made this a successful tome. Even the Volunteers in the Philipines are not covered well.

- "Birds of Prey" is the first book I have read by Wilbur Smith, and it won't be the last. I became thoroughly engrossed in Hal's adventures and was very disappointed when the last page came so quickly. This book deserves 5 stars for Mr. Smith's immaculate research and story-telling ability, its outstanding character development, and its plot-twisting emotional involvement. I can't wait to get started on his others.
