REVIEW OF NFPA 10 PRACTICE TEST

- Margaret Mitchell was my Great-Great Aunt. From her, I inherited some of my facial characteristics, and also a talent for writing. I first read my aunts book when I was in 7th grade, and fell head over heels in love with

it. It was a story that depicted the life from a southern point of view. In a vast majority of the Civil-War era novels, the Confederates are made out to be unruly rebels. Not ALL southerners were like that. Take The O'Hara family for example, did not treat their slaves badly, as many southern plantation owners were made out to be. I'm not denying the act of slavery as being horrible, for I know that it was, but at the same time, Margaret showed both sides. She showed the hardships and difficulties, loves and pleasures of southern life, and for that I am unbelievable proud to say that I am her blood.

- It didn't take me long to figure the author was from the South. It

painted a southern North. However, I did
paradise that was enjoy the story line
destroyed by the itself.
