REVIEW OF ANSWERS FOR USING ECONOMETRICS A PRACTICAL GUIDE

- Folks.... I have wasted a good chunk of money on those memory boosters books, kits, and instant reading stuff. I wish I found this book back then. All you get in

those high ticket seminars, kits and home study courses is here for less than \$15.00(Tax included). I recommend this book to anyone. Science based facts, with none of the over hyped claims.

- Kevin's obviously built on his experience and feedback from his first two novels, researched, and come away with a nicely rounded third in the series. I hope there are more. Again, we have 2 1/5 reviews with no content and lots of venom. Hmm.
