REVIEW OF INTERMEC NORAND USER GUIDE

- I had been looking for this book for quite a long time and was delighted to find it at such a great price! The sellers were fantastic about emailing me and sending the book practically overnight! I couldn't be happier or more impressed. Thanks very much.

- Let's hit all the subject matter here. I ordered this book only a few days ago and it is here already, I got it used and it looks like it is new. Now the book itself: This is a very thought out book, I have chickens now, and I have had Finches for many years, and as I grew up I had Budgies and Canaries. All of those are very different. My chickens molt but I was not aware that Cockatiels do also. I am sure that if my Charlie started to lose his feathers next month, I would have thought he was sick, this book explains that the molt at about 6 months and at that time it might be possible to tell the sex as soon as the feathers start to come back. This information alone is worth the price of this book, it goes on and tells all the illnesses that befalls Cockatiels. A very important subject that is fully covered in this book are food choices, the foods that will encourage good health and ones that will not, it also tells you which ones might cause death to your bird. Now that I just acquired my first Cockatiel and am a bit nervous owning my first small Parrot I really needed some help. I never pass up a chance to learn something new and if it means helping the animal in question it's worth it.. Just thumbing through this book and stopping to learn a few key points I learned more in a half hour with this book than I would if I were to search the internet for weeks. I have been searching the internet for advice and suggestions to make my Charlie happy and healthy. I now have an enormous amount of usable information in one small book that I can keep at my fingertips as opposed to searching web sites. I like this book and am very excited to be able to learn all I can about my precious pet that will be with me, hopefully, for many years to come... I also think it would not hurt an experienced owner I am sure there must be something in here that they did not know.. After we all cook but still love to read cookbooks...
