REVIEW OF CAMERON HYDRAULIC DATA A HANDY REFERENCE ON THE SUBJECTS OF HYDRAULICS AND STEAM

- As one reviewer stated, Wilson actually gets the reader to sympathize with the Nazis. Not an easy task but he pulls it off brilliantly. In fact, the most human character in the book is a German

officer, even though he is not the hero. I won't ruin any surprises for the new reader but suffice to say this. This is a novel that reads like a brilliant movie. The words flow off the pages and it is so easy to see everything that happens. The last hundred pages fly by FAST. This was indeed made into a movie but it needs to be done again and done right. If the right director can work this, I see it is a potential masterpiece. A must read.

- This book really gives excellent techniques for incorporating books in therapy. Dr. Pardeck also gives an excellent reading list for clinicians to choose from depending on the specific problem faced by the client.
