## **REVIEW OF MANUAL ENGINE MERCEDES BENZ OM 444 LA**

- One of the BEST science fiction books I've ever read, as written by one of the best science fiction authors to live, Foundation is a wonderful look into a completely different universe than our own. Foundation is based on a community of planets who have formed and Empire- A large collective society... One mathematician claims that it will collapse into the dark ages, and take 10,000 years to recover and rebuild... The foundation is formed in an attempt to reduce that time to 1,000 years by maintaining the knowledge of the present. While acting as a terrific science fiction setting and story, Foundation also serves as a very deep look into society as a whole, and how predictable a society is. The social implications of each major crisis as it occurs is aptly predicted and accounted for, which proves largely entertaining and intriguing... This is a must read for any science fiction fan, historian, or sociologist... It's well written and imaginative with engaging ideas and concepts true only to Asimov.

- I Loved It...Didn't You??
