### **REVIEW OF LADY AND BUTLER T04 FRENCH EDITION**

- This is an absolute must have for any serious Heinlein fan. Gifford obviously put a lot of work and thought into crafting the Heinlein Opus list, which provides a complete compendium of everything Heinlein has written. There are also tidbits about Heinlein work not published as well. Gifford's precise, clear, and unbiased commentary on nearly all of Heinlein's works is interesting and concise. It does a great service by providing a clear chronological progression of Heinlein as a writer, which gives the reader a fuller understanding of the works produced at a given time in Heinlein's career. I often felt nostalgic when going through commentary because I could remember the work and the period of my life that I read it, and the enjoyment that it brought me at the time. This book is indeed a companion for Heinlein fans.

- Thank you for the quick delivery, and the great price and very good condition of the purchase and the packaging of such, you have a happy customer!BB
