### REVIEW OF 0460 GEOGRAPHY PAPERS XTREMEPAPERS

- I bought a number of copies of the first edition of this book and gave them away to co-workers in the account services business. I looked everywhere for more copies and welcomed the new edition. Well done, Robert! This book is a must for ad agency service people and anyone else who deals with clients.

- I opened this book first to the entry "pronunciation". The author wondered if I said it this way (I did). He then pointed out that there was no such word! Egad, he caught me! Although there is a word "pronounce", there is no word "pronunciation". The word is proNUNciation, not proNOUNciation. I suppose this could be considered a trivial difference, and many of the pronunciations in this book are somewhat of this nature. But the book is a quick read and always interesting. I for one found I was making many of these type mistakes.
