REVIEW OF 1997 MITSUBISHI MIRAGE REPAIR MANUAL

• Edgar Rice Burroughs (1875-1950) was a prodigy of imagination. He started his writer career quite late; his first work was published in 1912. From that point on a ceaseless flow of imaginary worlds & heroes poured from his pen: John Carter of Mars, Carson Napier of Venus, David Innes and Abner Perry on Pellucidar at Earth's center and the most famous of them all Tarzan of the Apes. "Princess of Mars" is an astounding piece of fantasy. First story of ERB to be published it contains the seeds of lots of sci-fi and Fantasy novels to come in the following years. Also we may detect some traits of Tarzan in John Carter character. It's a pleasure to read so "fresh" adventures depicting a whole planet culture, ecology, interaction between different races, monsters, and inventions far ahead of ERB real

world, as "rifles with explosive bullets guided by wireless sensors". It amazes me how ERB can master in a rather short text (for present day standards); a high paced action story. Even if this book is 100 years old, you will enjoy it from the first to the last page and possibly continue reading all Carter's series. Reviewed by Max Yofre.

• This book was very impressive and I learned a lot about the subject of love and myself. It would be nice if every couple who are deciding to get married would read this book. If they did, perhaps they would understand going in that there is a lot more to it than 'what is in it for me.' Perhaps the sad divorce rate in our country would dissipate some extent. This book belongs on the top shelf with the other books I consider master works. I plan on reading the rest of Fromm's works.
