REVIEW OF INTRODUCTION TO DECISION THEORY INTRODUCTION

- Some thirty years ago I received the Benedictine habit in the Abbey of Saint Pierre in Solesmes, France. My Prior at that time was the Reverend Father Dom Lucien Regnault. Anyone interested in the Desert Fathers would do better to go to the Solesmes homesite and search their "librarie" (bookstore) for the works of Dom Regnault which are unsurpassed for scholarship and spiritual orthodoxy. Dom Regnault's several works in this field (or, rather, desert) are beyond compare, and tragically many are now out-of-print. I cherish mine very much. This present volume comes through the Vintage Spiritual Classics series. Catholic readers should know this as a section of Random House

(who first brought us under Bennet Cerf the greatest novel of our time: Ulysses by James Joyce) and while it is a very excellent and popular printing house (along with its colophon) it is not a Catholic Press and bears no ecclesial authority. This is one reason why you find the poor to luke warm reviews presented here. This is not their field of expertise. We can come little closer than the fine work of Dom Regnault. Of course those in the know realize the Father Basil Pennington is a well respected author and member of the heroic Trappist Monastery in Spencer, Massachusetts. His spiritual works are well known and appreciated as rich soil for meditation. I have met him personally as well, of course as I have also Dom Regnault, although not as constantly as the very humble yet magnificent and valient Dom Regnault. Yet, even so, I find Dom Regnault's works an unlimited and eternal jewel, and have often meditated them through translation into English. Notice well that Father Pennington does the Preface alone to this book and not the heavy lifting. Also notice the cover represents a community of monks from after the 1400's (when did Trappists wear an old white habit? Or is this the Carthusians, even later? or "white" Benedictines, even? no indication given in the book aside from a general source of religious illustrations). The cover does not display the mighty anchorites out alone in the Egyptian desert who wrote these apophthegmes a thousand years earlier. Enough said. Believe me, I was mistaken when I automatically gave this five stars. Read your Regnault. I urge you to find his out-of-print works here in the mighty amazon, or anywhere you can. It is very easy to order what is still in print from Solesmes, and they are very good about shipping and payment. They are after all Benedictines of

the highest order. Vintage Spiritual series meanwhile, is not a Catholic house and its work must be viewed as a popularization rather than a sacrament of the Living Word. The reviewer below who noted the probable age when Ms Waddell wrote this is correct. More recent work abounds. Especially, dare I say, Dom

Regnault.

- This book is written perfectly. It is educational and entertaining all at once. It tells of true-life accounts and the details are written so graphically you can feel the terror.
