J.M. Coetzee's latest novel, *The Schooldays of Jesus*, is now available from Viking. Late Essays: 2006-2016 will be available January 2018. Set in post-apartheid South Africa, J. M. Coetzee's searing novel tells the story of David Lurie, a twice divorced, 52-year-old professor of communications and Romantic Poetry at Cape Technical University. Lurie believes he has created a comfortable, if somewhat passionless, life for himself. He lives within his financial and emotional means. Though his position at the university has been reduced, he teaches his classes dutifully; and while age has diminished his attractiveness, weekly visits to a prostitute satisfy his sexual needs. He considers himself happy. But when Lurie seduces one of his students, he sets in motion a chain of events that will shatter his complacency and leave him utterly disgraced. Lurie pursues his relationship with the young Melanie—whom he describes as having hips “as slim as a twelve-year-old’s”—obsessively and narcissistically, ignoring, on one occasion, her wish not to have sex. When Melanie and her father lodge a complaint against him, Lurie is brought before an academic committee where he admits he is guilty of all the charges but refuses to express any repentance for his acts. In the furor of the scandal, jeered at by students, threatened by Melanie's boyfriend, ridiculed by his ex-wife, Lurie is forced to resign and flees Cape Town for his daughter Lucy's smallholding in the country. There he struggles to rekindle his relationship with Lucy and to understand the changing relations of blacks and whites in the new South Africa. But when three black strangers appear at their house asking to make a phone call, a harrowing afternoon of violence follows which leaves both of them badly shaken and further estranged from one another. After a brief return to Cape Town, where Lurie discovers his home has also been vandalized, he decides to stay on with his daughter, who is pregnant with the child of one of her attackers. Now thoroughly humiliated, Lurie devotes himself to volunteering at the animal clinic, where he helps put down diseased and unwanted dogs. It is here, Coetzee seems to suggest, that Lurie gains a redeeming sense of compassion absent from his life up to this point. Written with the austere clarity that has made J. M. Coetzee the winner of two Booker Prizes, *Disgrace* explores the downfall of one man and dramatizes, with unforgettable, at times almost unbearable, vividness the plight of a country caught in the chaotic aftermath of centuries of racial oppression.

This book is the most comprehensive book you will find on AutoCAD 2021 - 2D Drafting on the market. It is divided into three major parts: Essentials: From Chapter 1 to Chapter 10. It assumes that the reader has no previous experience in AutoCAD; hence it starts from scratch. Chapter ten contains three projects--one architectural and two mechanical using both Imperial and metric units. - Intermediate: From Chapter 11 to Chapter 18. It contains a deeper discussion on a subject we touched on in the Essentials part, or a new advance feature. -- Advanced: from Chapter 19 to Chapter 26. It discusses the most advanced features of AutoCAD 2021. If you don't have any prior experience in AutoCAD this book is a perfect start, and you can stop at the end of any part. This book is also a good source to prepare for the AutoCAD Certified Professional exam.

The Dictionary of Construction Terms offers clear and concise explanations of the most commonly encountered legal and technical terms, phrases and abbreviations used throughout the construction industry. It will save valuable time when searching for an authoritative explanation of a frequently used term and will become a practical reference for construction lawyers, practitioners and students, as well as those in related industries including planning, property and insurance. Why you should buy this book: There is no other all-inclusive collection of legal and technical terms available at present Convenient source of information for lawyers, practitioners and students Includes a list of common technical acronyms (ie. DPC, DPM, FFL) Lists acronyms of common institutions such as the ICE, JCT and ACE Examples of definitions: Modular construction A modern construction method

whereby the building is constructed using prefabricated or pre-assembled building sections or modules. The three-dimensional building sections are typically fabricated and assembled in an enclosed factory environment and then delivered to site, ready for installation. Modular construction is aimed at minimising construction time by standardising design components, providing consistent quality and allowing site preparation and building activities to commence concurrently with the construction of the factory-made modules. Snagging The process of formally inspecting the construction works to identify any incomplete works or defects in completed works. A snagging list (or 'punch list') is a schedule of defects resulting from this inspection. These items typically need to be rectified prior to the issuing of a completion certificate or handing-over of the works although in some cases a completion certificate will be issued with a snagging list attached.

The BDA Guide to Successful Brickwork is the definitive practical guide to obtaining successful results in brickwork construction. Written by a team of experts from the Brick Development Association, the representative group in industry for brickwork construction, this best-selling text has now been brought fully in line with the latest British and European Standards, including the requirements of the new European Standard for Bricks EN771-1, to ensure readers are receiving the most up-to-date and accurate information available in the field. Based on actual teaching practice, the book is highly illustrated throughout to increase accessibility of the text for the reader in its exploration of the practical aspects of brickwork. It also includes an extensive glossary of brickwork terms for ease of reference. The third edition contains new material detailing recent innovations in brickwork, in the areas of components, systems and techniques, which includes the development of thin-joint techniques for both brickwork and blockwork. Students following NVQs and Construction Awards in Trowel Occupations (bricklaying route, at Foundation, Intermediate and Advanced level) from CITB, will find this book to be an invaluable source of information which will accompany them throughout their studies. The text has additional relevance to BTEC National and Higher Nationals in Construction, as well as GNVQ Intermediate and AVCE Construction and Built Environment courses. Building professionals concerned with the design, detailing and specification of brickwork will also find The BDA Guide to be an essential reference.

Valuing People in Construction provides contemporary perspectives on the 'glue' that binds the construction process together; people. The book addresses people issues in the construction industry where behavioural outcomes impact upon business and project performance. The main proposition of the book is that as people continue to lead the completion of construction activities, their health, safety, and well-being should be seen as a priority, and valued by stakeholders. As employers and employees, the role of people in construction must be to strive for the improvement of individual lives and society. This edited collection, which is the first book to focus specifically on placing value on people in construction, focuses on people at work, gender at work, conditions at work, and respect at work. In addition to an editorial overview, the book presents tested and refined empirical work and case studies by leading construction researchers from Africa, Australia, and Europe. Essential reading for researchers, students and professionals interested in construction management, the sociology of construction, HRM in construction, gender, work and health studies.

*Manual of First and Second Fixing Carpentry* Springer

This book presents a state of the art in mortar characterisation, experimentation with and applications of new mortars for conservation and repair of historic buildings. This volume includes the following topics: characterisation of historic mortars (methods, interpretation, application of results), development of new materials for conservation (compatibility, durability, mix designs), the history of mortar technology and fundamental experimental studies of material properties. The papers have been selected from those presented at the 3rd Historic Mortars Conference, held in Glasgow, Scotland, September 11-14th 2013. All the papers here underwent a two stage peer review process, for the conference and again for this volume. In some cases this has resulted in a revision and updating of content.

This volume focuses on research and practical issues connected with mortars on historic structures. The book is divided into four sections: Characterisation of Historic Mortars, Repair Mortars and

Design Issues, Experimental Research into Properties of Repair Mortars, and Assessment and Testing. The papers present the latest work of researchers in their field. The individual contributions were selected from the contributions to the 2nd Historic Mortars Conference, which took place in Prague, September, 22-24, 2010. All papers were reviewed and improved as necessary before publication. This peer review process by the editors resulted in the 34 individual contributions included in here. One extra paper reviewing and summarising State-of-the-Art knowledge covered by this publication was added as a starting and navigational point for the reader. The editors believe that having these papers in print is important and they hope that it will stimulate further research into historic mortars and related subjects.

- This map covers more of the Houston Area than other maps I was looking at. The CD that comes with the book is also excellent because I can quickly print any map that I want (as opposed to lots of maps off of MAPQUEST).

- I loved this book. I had to laugh and then I had to cry. I had to remind myself it was 'just a book'. My only complaint was that it just stopped but I know that the next one will pick up there. I want more.....
