World Prehistory: The Basics tells the compelling story of human prehistory, from our African origins to the spectacular pre-industrial civilizations and cities of the more recent past. Written in a non-technical style by two archaeologists and experienced writers about the past, the story begins with human origins in Africa some 6 million years ago and the spread of our remote ancestors across the Old World. Then we return to Africa and describe the emergence of Homo sapiens (modern humans) about 350,000 years ago, then, much later, their permanent settlement of Europe, Eurasia, Asia, and the Americas. From hunters and foragers, we turn to the origins of farming and animal domestication in different parts of the world after about 11,000 years ago and show how these new economies changed human existence dramatically. Five chapters tell the stories of the great pre-industrial civilizations that emerged after 5,000 years before present in the Old World and the Americas, their strengths, volatility, and weaknesses. These chapters describe powerful rulers and their ideologies, also the lives of non-elites. The narratives chronicle the rise and fall of civilizations, and the devastating effects of long droughts on many of them. The

closing chapter poses a question: Why is world prehistory important in the modern world? What does it tell us about ourselves? Providing a simple, but entertaining and stimulating, account of the prehistoric past from human origins to today from a global perspective, World Prehistory: The Basics is the ideal guide to the story of our early human past and its relevance to the modern world.

The definitive translation by Dick Davis of the great national epic of Iran—now newly revised and expanded to be the most complete English-language edition A Penguin Classic Dick Davis—“our pre-eminent translator from the Persian” (The Washington Post)—has revised and expanded his acclaimed translation of Ferdowsi’s masterpiece, adding more than 100

pages of newly translated text. Davis’s elegant combination of prose and verse allows the poetry of the Shahnameh to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers. Originally composed for the Samanid princes of Khorasan in the tenth century, the Shahnameh is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the Shahnameh are deeply embedded in Persian culture and beyond, as attested by their appearance in such works as *The Kite Runner* and the love poems of Rumi and Hafez. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

25th Anniversary Edition "A magnificent treasure for all cultures and all time." --St. Petersburg Times It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leónidas Trujillo's dictatorship. It

doesn't have to. Everybody knows of Las Mariposas--the Butterflies. In this extraordinary novel, the voices of all four sisters--Minerva, Patria, María Teresa, and the survivor, Dedé--speak across the decades to tell their own stories, from secret crushes to gunrunning, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred Butterflies live again in this novel of courage and love, and the human costs of political oppression. Julia Alvarez's new novel, *Afterlife*, is available now.

Five women revolutionize the modern art world in postwar America in this "gratifying, generous, and lush" true story from a National Book Award and Pulitzer Prize finalist (Jennifer Szalai, *New York Times*). Set amid the most turbulent social and political period of modern times, *Ninth Street Women* is the impassioned, wild, sometimes tragic, always exhilarating chronicle of five women who dared to enter the male-dominated world of twentieth-century abstract painting -- not as muses but as artists. From their cold-water lofts, where they worked, drank, fought, and loved, these pioneers burst open the door to the art world for themselves and countless others to come. Gutsy and indomitable, Lee Krasner was a hell-raising leader among artists long before she became part of the modern art world's first celebrity couple by marrying Jackson Pollock. Elaine de Kooning, whose brilliant mind and peerless charm made her the emotional center of the New York School, used her work and words to build a bridge between the avant-garde and a public that scorned abstract art as a hoax. Grace Hartigan fearlessly abandoned life

as a New Jersey housewife and mother to achieve stardom as one of the boldest painters of her generation. Joan Mitchell, whose notoriously tough exterior shielded a vulnerable artist within, escaped a privileged but emotionally damaging Chicago childhood to translate her fierce vision into magnificent canvases. And Helen Frankenthaler, the beautiful daughter of a prominent New York family, chose the difficult path of the creative life. Her gamble paid off: At twenty-three she created a work so original it launched a new school of painting. These women changed American art and society, tearing up the prevailing social code and replacing it with a doctrine of liberation. In *Ninth Street Women*, acclaimed author Mary Gabriel tells a remarkable and inspiring story of the power of art and artists in shaping not just postwar America but the future.

This title was first published in 2000: The author's masterly exposition of the principles and practice of project management has been pre-eminent in its field for four decades. It was among the very few early books to treat project management holistically, rather than as a collection of separate techniques. It thus explains the entire project management process in great detail, demonstrating techniques ranging from the simplest of charts to sophisticated computer applications. Everything is reinforced throughout with case examples and diagrams. The text has been completely restructured and largely rewritten for this ninth edition, so that the sequence now follows even more closely the life-cycle of a typical project from its earliest definition to final close-out. Case examples and diagrams have all been reviewed,

updated, augmented or replaced.

Histories and Cultures, however, editors Masha Salazkina and Enrique Fibla-Gutiérrez fill the literature gap by extending that focus and increasing inclusivity. Through carefully curated essays, Salazkina and Fibla-Gutiérrez bring wider meaning and significance to the discipline through their study of alternative cinema in new territories, fueled by different historical and political circumstances, innovative technologies, and ambitious practitioners. The essays in this volume work to realize the radical societal democratization that shows up in amateur cinema around the world. In particular, diverse contributors highlight the significance of amateur filmmaking, the exhibition of amateur films, the uses and availability of film technologies, and the inventive and creative approaches of filmmakers and advocates of amateur film. Together, these essays shed new light on alternative cinema in a wide range of cities and countries where amateur films thrive in the shadow of commercial and conventional film industries.

"The Humanities through the Arts, tenth edition, explores the

humanities with an emphasis on the arts. Examining the relationship of the humanities to values, objects, and events important to people is central to this book. We make a distinction between artists and other humanists: Artists reveal values, while other humanists examine or reflect on values. We study how values are revealed in the arts while keeping in mind a basic question: "What is art?" Judging by the existence of ancient artifacts, we see that artistic expression is one of the most fundamental human activities. It binds us together as a people by revealing the most important values of our culture"--

REVIEW OF FILM ART AN INTRODUCTION 10TH EDITION BORDWELL PDF

- Roald Dahl is a master at captivating children (usually with telling them how boring/mean adults are). Matilda has you in stitches from beginning to end and I promise your child won't get bored either. I recommend this as a read aloud book because adults will enjoy it just as much as the kids.
- This is a hard book to read, not because of any overdose of erudition or inaccessibility of the text, but due to the emotional

reaction it can evoke from the reader. (This is easily demonstrated by a look at the other reviews.) If one has Irish ancestry, it's hard not to take personally. However, a historical retrospective of the social perceptions of Irish-Americans over the last 150 years is well worth reading. The shift in Irish-American image over time is fascinating; it's pleasing to see a group pull themselves out of disfavor and disturbing to see it happen at the expense of others in similar disfavor. Ignatiev illustrates the

context of this perception shift well, with illustrative examples from events and news sources of the time. The book is moderately well documented, allowing the reader to search out further references at will. While there are a few points where the author oversimplifies for length and cohesiveness of narrative, overall it's an interesting read, and a reasonable treatment of a painful and complicated issue.
