REVIEW OF CALCULUS 8TH EDITION EARLY TRANSCENDENTALS SINGLE VARIABLE

- Comparing this 500 page sleeping pill to Lord of the Rings is like comparing a Rolls Royce Phantom II to a 1975 Pinto. Dune has some good ideas and in some parts the story really pick up, but over all this book is not as interesting, the characters are not as deep, and the writting style not as polished as Tolken's work. Paul Atreides is not as interesting as Frodo, or even Luke Skywalker. Jessica reminds me of Jan Brady or a 1970s coffee commercial where the character is always talking to themselves about the things around them. Gurney, I must admit reminded me of Sam, but only a little. Whether you like this book or not, Dune cannot hold a candle to LOTR. I must admit Dune has its interesting moments, but not enough for a good review. The reader will find himself or herself saying over and over again, "No, not another sand worm!" The writting style is deplorable. Herbert's prose is some of the worst I have ever read. Unlike Hawthorne, Dickens, and Melville, Herbert sentence structure is choppy, uneven, and cumbersome. I made it through this book,

but I must admit, it did not hold my interest and I did breeze over a few pages. This book stinks! I give it a B plus for over all creativity. C minus for the story development D minus for style. D plus for Character development F for the micro-font this edition is printed in I know I am going to get tared and feathered for this review!

- Dune is one of the greatest books, not just science-fiction books, of all time. It is an epic story in which intergalactic fiefdoms vie for power under the cryptic mechanizations of the galactic Emperor. The story begins when House Atreides is granted stewardship of a desert planet that is the sole source of the spice mélange. The spice is exceedingly important to the galaxy as it is used by the Spacing Guild in interstellar navigation and by the Bene Gesserit to extend their psychological powers. The empire cannot exist without space travel nor the Bene Gesserit's controlling influence. So, it cannot exist without the spice. The Atreides are immediately aware of this and the tenacity of their situation, especially with their rivals and the former custodians of Dune: House Harkonnen. All this is backdrop to the real story though: the plight of a young man named Paul Atreides heir to House Atreides. Paul is the son of the Duke Atreides and the Lady Jessica, a Bene Gesserit and bound concubine to the Duke. Sharing both his father's noble upbringing and his mother's special powers, Paul is quickly identified as a powerful future leader and potentially the messiah of ancient Bene Gesserit lore: the Kwisatz Haderach. When the Atreides are betrayed by the Emperor, who reveals his true allegiance to House Harkonnen, a gripping saga commences that challenges

Paul to survive to avenge his family against an empire bent on destroying him. The entire Dune series is engaging and complete in its imagined universe that each book is a treasure in its own

right. The first book however stands even above the rest as the fantastically imagined beginning to the legacy of Dune. It is a must-read for anyone.
