today with digital Financial Accounting 10th Edition book downloads. With so many titles and genres to choose from, the possibilities are unlimited. Delighted analysis!

REVIEW OF FINANCIAL ACCOUNTING 10TH EDITION

- Christopher Paolini has written a book that showcases his potential for producing some truly great fantasy stories in the future. While reading this book, I found myself constantly comparing the plot and character development to other authors. This was not always a bad thing, however, because in some instances Paolini actually improves upon other authors' ideas and writing styles. For example, in scenes that dealt with interaction between Eragon and his dragon, Saphira, of course Anne McCaffrey's Pern stories immediately came to mind. But, I was impressed by Paolini's inclusion of his own original details- and found myself thinking that those extra details were the things I always wanted to know when reading the Pern books, but was never given by McCaffrey. The only time I was really disgusted by a borrowed idea was near the end of the book, when Paolini unashamedly rips off Ursula LeGuin's Earthsea novels nearly word for word in discussing the nature of magic, with regard to the Language of the Making (which dragons inherently know and humans must strive to learn); and the idea that every thing and being has a name in the Language of the Making that if known, gives others power over that thing or being. The only twist Paolini gives to the idea is that humans must discover their name (while LeGuin's characters are given their name in a coming of age

ritual).I believe Paolini's next book in the series will serve to define the greatness of "Eragon". I fear that the potential is there for the story to degenerate into a painfully drawn out "Wheel of Time" series. However, if Paolini disciplines himself and keeps his writing fresh and interesting, "Eragon" will be a commendable first effort that serves as a springboard to other truly great books.

- I was interested in this book because a teen wrote it and I like writing as well. However, I think adults are giving him too much credit just because he managed to write and publish a novel while he was still a teen. There are many other teen writers who are far better than him (for example, Amelia Atwater-Rhodes,

who was a teenager when she had her first few novels published).This book drags on and seems like a very cheap imitation from the names and plot of the story, which seems interesting at first. The title character, Eragon, is annoying, temperamental, and I didn't like him the whole way through. In fact, the only character I really liked was Saphira, the dragon. The plot unclear and it seemed as though Eragon was going to no particular place for no particular reason.The only thing I truly liked is that Paolini had the ability to write well at times, although Eragon seemed to "ponder" quite a bit before falling asleep.I recommend that you don't by this book, but if you really want to read it, check it out from the library.
