Bear in mind, reviewing testimonials can help you make notified choices concerning what to review next and can reveal you to brand-new authors and genres you may not have actually thought about in the past.

#### **REVIEW OF AUTHORS MARY RUTH COLEMAN PH D FROMA ROTH PH D**

- If you read the Wall Street Journal or the New York Times, many of the stories in this book will seem familiar to you. They should. Matthew Brzezinski was a reporter for both publications in the 1990s. In this witty revealing book, he shares with you not only the stories he covered but the experiences he had in covering them and living in Kiev and Moscow. The stories are connected by his descriptions of what happened to him, his fiancée, their friends, and the people he wrote about. The book begins with being mugged in his own apartment by a confidence team in Kiev and ends with leaving the country to avoid confiscatory taxation. Unfortunately, he ends up having a regret. A year later, one of his Journal colleagues wins a Pulitzer for her reporting of the aftermath of the Russian debt crisis. Crony Capitalism is the name that has been applied to the Russian tendency for government officials to share the benefits of special favors with their buddies, and probably get a rake-off in the process. In substance, it is little different than the corruption in many third-world countries. The key difference is that Russia as an advanced industrial country with lots of natural resources had a lot of booty to share. As a result, people arise out of nowhere to command enterprises worth billions. And disappear just as quickly when their sponsors in the government are ousted. Although these scenes occur in the 1990s, they will remind you of stories about Prohibition in the United States. For example, night spots are publicly rated for the likelihood that criminals will start shooting at each other in them as well as the likelihood of being able to arrange for sexual favors. Business people operate with teams of former commandos as body guards. The disregard for society's needs is pretty strong. In a section called "The Zone" you will read about visiting the radioactive sites in and around Chernobyl. While the visitors are wearing protective gear and leaving quickly when the radiation count gets too high, people have been bribed with good jobs to come work and live in these dangerous areas without any protection. Stories about six-fingered children and other indications of genetic damage abound. But the most chilling story for me was about a training session in capitalism run for some youths in a Young Pioneers camp. Set up to mimic a free market, the youngsters were soon counterfeiting money, intimidating each other, cornering scarce supplies, and generally running the show corruptly to favor themselves. It seemed like a perfect analogy for what was occurring in the whole country. With such an ingrained, warped reaction to wide-open capitalism, can Russian have much hope for improvement? I certainly hope so. But, if that is to occur, the prescription will not be found in these pages that outline the abuses. The stories of daily living are also compelling. If you drive a car in the capital, you will get at least one traffic ticket a day. That's the way that the local Moscow police earn a living wage. On some days, you might get two. For an airplane trip, no one is sure if the planes will take off or land. Great risks are run in the process. Businesses don't pay their taxes, workers, or bills. The new rich seem to be living at the ultimate, while most are desperately poor. Naturally, a lot of this goes up in smoke when the currency crashes in the debt crisis. Savings are destroyed, and foreigners leave behind the billions that they thought they had scored big with. Clearly, much of the money earned through Crony Capitalism was simply looted and sent to foreign bank accounts. The result was probably to impoverish the country more than it was to begin with. After you finish this fascinating book, think about where else unrestrained greed has negative consequences. How can the benefits of individual initiative be gained in the context of lawlessness . . . except by joining a criminal gang? That seems like the lesson of this book. Where's Wyatt Earp? Appreciate your responsibilities to others as a way to ensure the benefits of being supported by their efforts as well as your own.

- I bought this edition rather than the newer editions. I'm learning a lot from the book.
