#### **Review of Organizations Structures Processes and Outcomes**

- Begin your adventure here into the amazing universe of Frank Herbert's Dune. It is a rich and incredible work of storytelling that just happens to be classified as "SciFi". This is first class literature, period. Mr. Herbert will grab you on the first page and you will not be able to put the book down until you have finished it and have purchased ALL of the other books about the Dune universe, including his son's contributions. I promise you will not be disappointed.

- Dune is a long novel. It's split into two books, that each make up this story. Science fiction always seems to rely on the human factor. The struggles that we deal with today. The dirty politics. The writer can only write what he knows, that's what makes this genre so compelling and yet so frustrating for the writer. And at times the audience can translate that frustration. It is this that punctuates his core characters. I could feel the struggles he took

in deciding things for his characters. I fought with his characters with great apathy. I felt fatigued at one point, At midsection through the book, when poor Paul is left with his mother. Estranged, driven out of their proud house. I wanted to believe that only good would come for the young boy and his mother. Frank makes good use of his genius and technical sources. He made a world, a world of fabulous riches and depth, real. This is the hardest single achievement for writers. Shakespeare created a world where you could imagine anything occurring. Tolkien created, gave birth to a cultural sense for his beloved LOTR's. Frank takes us to a desert planet, on the shoulders of a royal family. A duke, and his mistress, whom he shares love

with, and with Paul whom belongs to a rare school of teachings, in which he is the only male. A living legend it is told, and great turmoil, mixed with hope. Paul, as a young boy, is faced with this legend. You are tossed into his mind for instances. You read in soliquy. His thoughts are aged and his coherence is quick. Every step of his realization, do you follow. Every love, and then the betrayel. You follow it all, and inside this young boys head, you hear the unnerving duty that calls him. His attraction to the spice. His inherited understanding of the world of Arrakis. The mysterious spice. It is the power of Arrakis, and the understanding of the spice is his destiny. I am proud to have read this book.-jeff
