### **REVIEW OF STEIN PA STEIN TEKSTBOK 2014**

- This was a very impressive tale covering three generations of women of different classes in the history of El Salvador. Even if you have never been to that country nor know a lot of the history the story is gripping. The relations between the various women are beautifully drawn and are good and interesting enough to overcome the sometimes tedious effort to tell the history of the country. The book contains many jewels of small and simple things people do for and with each other. The letter of Caecilia at the end of the book is an example of absolute literary beauty and I will not forget that scene for a long time. In the best traditions of Isabel Allende and G.G. Marquez. A book which I not only enjoyed

reading but one that I will give friends as a present.

- Tess is a novel written by a man about a woman who is mistreated by other men until she defies the men's acts with a crime conceived by the men's cruelty inflicted upon her. In short, it is a passionate statement about man's cruelty to a woman. This book understands the differences between man and woman, and for the most part, it is not complimentary to men. Exceptions exist. "The sun, on account of the mist, had a curious sentient, personal look, demanding the masculine pronoun for its adequate expression." And during the hard times inflicted upon her, Tess refuses to reproach those men who made her life a miserable existence. It starts with her father, whose newfound nobility engage him in a mead house where he misses a deadline, requiring her to carry on the family business, which results in a horrible accident and family economic loss. From there, she must endure hard work, be sexually mistreated by an employer, move away from her castigated self from a problem to which she had no cause, live a life as a simple milk maid, and then marry. When she marries, it seems that all is well. But, her husband, when discovering during their honeymoon that her flower was violated (even though without permission) by one before him, immediately exiles himself to Brazil and leaves her in poverty and public humiliation. Her life is not good - and she knows it: to the point where she contemplates suicide. But, one day, when walking in the woods she sees maimed birds (hunting's collateral damage) which slowly walk about to a cruel and painful demise. When seeing their tortured final moments on earth, she says, "Poor darlings - to suppose myself the most miserable being on earth in the sight o' such misery as yours!" "And not a twinge of bodily pain about me! I be not mangled, and not bleeding, and I have two hands to feed and clothe me." She is miserable, but she understands the relativity of such emotion. Men in this book really have to take the blame. Like the hunters who irresponsibly leave half-shot birds to limp to their graves, her husband must atone for his terribly misguided and failed judgment of her and her unwelcomed sexual experience. She was by modern standards too young to consent, and certainly did not consent. And, after years of review of the issue, her husband concludes what modern men would have been capable of doing in moments - ask for her forgiveness and pity her. "Thus from being her critic he grew to be her advocate." But, this is not a love story with undertones of happy endings. Shakespearean in many ways, devoted to tragic ending, this book raises the title character to sainthood. And, like most tragedies, only the cold can complete the final pages without welled eyes.
