Twice the Man Xlibris Corporation
Rod Angell has woven the details of his

eventful life into a vivid story of “rags to a comparatively comfortable retirement.” He was born in 1929, the year of the Wall Street Crash and the poverty of his family, struggling in the Depression to live and care for their children on a scanty income; however, all this was of lesser importance to him in later life than being born in the same year as Popeye! Follow the account of a Yorkshire tyke as he reveals in quite vivid detail the life of a childhood in the '30s, enduring all the gamut of childhood ailments and disease in a time before drugs, antibiotics, and the wonder of penicillin. He discusses life as a wartime evacuee, progressing with humorous anecdotes and drama into a challenging, action-filled life as a Grenadier Guardsman on active service and then a drummer to the Royal Household, with all the pomp and ceremony that was his lot. He also tells of the many royal and state occasions he was a part of. The final part of his working life was as a firefighter, with its many challenges, ending his career in the rank of divisional commander. This book is not the story of two men, but of one who, after a demanding life as a soldier, followed by a dangerous one as a firefighter, surely became twice the man he was.

(Solved With Explanations) for INET (Indian Navy Entrance Test)

For the British, the Battle of the Atlantic was a fight for survival. They depended on the safe transit of hundreds of convoys of merchant ships laden with food, raw materials and munitions from America to feed the country and to keep the war effort going, and they had to export manufactured goods to pay for it all. So Britain's merchant navy, a disparate collection of private vessels, became the country's lifeline, while its seamen, officially non-combatants, bravely endured the onslaught of the German U-boat offensive until Allied superiority overwhelmed the enemy. In this important, moving and exciting book, drawing extensively on first-hand sources, the acclaimed maritime historian Richard Woodman establishes the importance of the British and Allied merchant fleets in the struggle against Germany and elevates the heroic seamen who manned them to their rightful place in the history of the Second World War.

REVIEW OF MERCHANT

NAVY ENTRANCE QUESTION PAPER

- This is the first novel by Stephen King I have read and it was really great to read. I dealt with aliens, which I am assuming is a bit different from most of the author's previous novels. But the plot and subplots were really indepth and fascinating. Although with 600 pages I did find some dull spots(why I gave 4 stars), mainly the chase part, I got a little bored during then. Overall, a really fun book to read.

- Maybe, if I'd not be a big Stephen King-fan, I'd say 'Dreamcatcher' is a average novel, good entertainment, whatever. But unfortunately I'm not and so I have the heavy task for the first time ever not praising a King-novel. And even this is an understatement. I can not only not praise it, I also have to say how bad it is. Having read every King-book I have to say, even if there were some not-so-good ones, there never was a bad one. Never. But there is 'Dreamcatcher' now (in german it's called for no real reason 'Duddits') and my disappointment about this book started after reading about 100 pages. The story: four since-childhood-friends are on their yearly hunting trip. There discover a confused hunter, who is sick. They find out the forest their in is contaminated and the military is guarding it. So they have to look for help by their old, retarded friend, Duddits. If this sounds a bit confusing then because it is. These summary is only superficial. Let's see, we have four childhood friends who have to face they grew old, a retarded friend, telepathy, military, aliens, a lot of farting and even more clichés. If this sounds too much for one book, then because it definitely is. King never really was the master of clichés,

but here he shows that he can put one after another. The retarded friend is the real genius, the military colonel is pure evil, the aliens are either flesheating aliens or mind-telepathists. The book in a whole is unbelievable from beginning to the end. It's also really annoying. How much do you want to read about people who fart more and more until they die very unpleasant? For me, one sentence was enough, but it lasted till the very end. The book is also unnecessary brutal and violent. It's not a somehow necessary violence as in earlier books, but seems just to be there for the effect. The evil General Kurtz (yes, Kurtz) only wants to kill, prays a lot and doesn't like sex. Duddits, the retarded, is funny and everyone just loves him and besides that he's brilliant. Government betrays us, aliens are evil as always and the past never lets you go. I rarely saw such unnecessary flashbacks. There are so many hints to the past that I really

wondered: why? When the stories are told finally, you never know why they should be important. The book is a poor mixture of It, Tommyknockers, any Alien-monster-story, any Alien-mindpeople-story and Rain Man. It's hard to summarize the problem of the book. It's very confused and full of clichés and sometimes boring. Even the usual references to other books seem faked. King writes in the end, that he wrote the book after his heavy accident. I have the poor hope, that this is not only the reason for the quality of this book, but maybe he'll write a better one now. His last good book was 'Hearts in Atlantis' and before that 'The Green Mile' (and of course the Dark Tower). But there also was the unnecessary 'Tom Gordon', the flat 'Storm of the Century', the money-maker 'On Writing', the bad 'Insomnia'-copy 'Bag of Bones' and now 'Dreamcatcher'. At first I thought I like his books less, because I grew older. But now I think it's him. It's really a pity.
