So why wait? Beginning discovering our PDF collection today and download Animal Farm Answer Questions Rswers terrific read. We assure you won't regret it!

Thank you for choosing our platform for your PDF downloads. We eagerly anticipate giving you with excellent service and diverse options for years to come.

REVIEW OF ANIMAL FARM ANSWER QUESTIONS RSVRS

- A few months before the publication and huge success of *The Patchwork Girl of Oz*, L. Frank Baum loosely adapted his *Ozma of Oz* and *The Road To Oz* novels into a stage play titled *The Tik-Tok Man of Oz*. When the time came for an eight installment for the Oz stories, Baum adapted the play into what would become 1914's *Tik-Tok of Oz*. In the brief preface, he once again thanks his readers for enjoying his stories and informs them that Dorothy's come through with yet another tale via "the wireless". The story begins in Oogaboo, a small valley in the far corner of Oz ruled by Queen Ann Soforth. Dissatisfied with her tiny monarchy made of "eighteen men, twenty-seven women and forty-four children" and jealous of Princess Ozma's vast kingdom, Ann gathers together an army of seventeen men to conquer the Emerald City. However the Good Witch Glinda is already aware of their plans thanks to her magic Record Book and uses her powers to guide the measly "army" in the opposite direction. Meanwhile Oklahoma girl Betsy Bobbin is shipwrecked with her mule Hank and the two find themselves in the Rose Kingdom, home to snobby, self-centered roses of various colors. The Royal Gardener, the only human allowed in the domain, is ordered to execute Betsy and Hank when the Shaggy Man falls through the roof of the greenhouse and uses his trusty Love Magnet to save them. Unfortunately it doesn't work on the heartless roses and Betsy plucks the Rose Princess

Ozga before they're thrown out. Shaggy explains to his new friends that he's on a journey to find his brother who's gone missing since digging underground. Seeing as the Nome King hates it when humans come anywhere near his home, it's surmised that he's kidnapped him. Along the way they meet Polychrome (the Rainbow's daughter who's slid off her father's bow once again), rescue Tik-Tok from a well the Nome King tossed him in, and join forces with Queen Ann and her army. The terrible Metal Monarch knows of their quest and tries to stop them. They're soon cast into the Hollow Tube where they find themselves on the other side of the world. Tititi-Hoochoo the Great Jinjin aka the Private Citizen is angered by the King's actions and sends the travelers back the other way via the back of a dragon named Quox for a face-off with the Nome and his cronies. Does the plot sound familiar? It should since it's a copy of *Ozma of Oz* and a poor one at that. My biggest beef with this installment is how underdeveloped the new characters are. Queen Ann starts off as a slightly bratty girl with the unrealistic ambition of overthrowing Ozma, but quickly becomes an utter annoyance I cared little for. Little Betsy's sweet enough, but she's a total knock-off of Dorothy and Hank is useless. I almost forgot Ozga was even a part of the story, she was barely there and the same goes for Tik-Tok. Although his name is in the title, he's sorely underused. Then there are the continuity issues. Polychrome and the Shaggy Man had already met and traveled together to the Emerald City in *The Road to Oz*, but they're complete strangers to each other here. In that same novel it's said that one only needs the Love Magnet on their person for it to work, but in *Tik-Tok* it has to be physically shown or its power is useless. Minor issues maybe, but they're unnecessary and avoidable. On the positive side, Baum's knack for holding the reader's attention is still there. Even when I found myself rolling my eyes at the obvious rip-offs of past (and better) Oz stories, I was never bored. John R. Neill is back with his colorfully alluring illustrations and includes a beautifully detailed map of Oz and its neighboring countries in the book's endpapers. Apparently Baum's fans were also displeased by *Tik-Tok of Oz* at the time of its release since it sold 3,000 copies fewer than its predecessor *The Patchwork Girl of Oz*. Fortunately *The Royal Historian of Oz* would get his groove back with *The Scarecrow of Oz*.

- This is a very clearly written and informative introduction to setting up and maintaining a server for Web publishing. Besides chapters on installation and configuration, it also has an overview of HTML and some advanced web authoring techniques. The only drawback is that it will only teach you about setting up a Novell Web server (a fine choice actually) and so you won't learn anything about Unix or Windows NT servers. But that's to be expected since this book is a Novell product. Also, you will need to have a file server with NetWare or IntraNetware already installed, or access to one, before you can install the Novell Web Server 3.1 that comes with the book. If you are an accomplished webmaster you probably won't need to read this book, but if you are a novice just starting out, you will find much relief in having Jim Bowman as your friendly and helpful guide.
