## **REVIEW OF LINEAR AND NONLINEAR OPTIMIZATION GRIVA SOLUTIONS**

- A truly sweet account of the author's quest to find out using snow/ice-water-crystals how water changes and is influenced by us with pollution/thought/emotion etcThe author was so convinced of his findings that he originally self-published his book. He was

tireless in his enthusiasm for what he found. Some of the pictures are such a delight it makes you think twice about even drinking a glass of water, let alone leaving one lying around. As a qualified Homeopath and author of How to Survive a Pisces, I have a deep knowledge of water in all its guises and I congratulate Mr Emoto's vision. If you want to hear him talking about resonance go to[...] and you will see Mr Emoto talking more about his theories. I loved this book and even the story of it made me feel tearful because it was written in love and for love:)

- I believe this book has the power to transform the way you view life. I am a teacher and I discuss this book in my class. It is always intriguing to the kids. I now raffle it off at the end of the year and I can't tell you how happy the students are to receive it. It opens their eyes to how important their thoughts and feelings are. That is a wonderful gift to give a child.
