The one-of-a-kind narration style, relatable personalities, and plot spins make it a worthwhile addition to your shelf. So, if you're looking for a captivating read, 66 Vw Bug Engine is most definitely worth thinking about.

REVIEW OF 66 VW BUG ENGINE

- This novel was a very symbolic and accurate detail of the irony of human nature. It delivered with subtle power the message that we are all capable of tearing each other apart. Although slow to start off with, "The Lord of the Flies" finished with a punch and kept me thinking about the messages it sent for days afterwards. A good read.
- We did not think that the book was very good because up until the last few chapters it was soooooo boring. It took a while for the book to get interesting. It was very disturbing to see 11 and 12 year old boys wanting to kill each other and hurt each other. We liked how there was a lot of symbolism in the book and how it related to what was going on in the time period in which the book took place.
