- Very interesting take on a great manager. This book is short, to the point and is written like a novel which makes is real easy to read. What I liked about it is its wisdom. It gives you quick but effective lessons on how to treat people that work for you right, how to create the most effective organization through your people and how to free up your own time by delegating and developing experts within your organization. Read it, you won't regret it. I won't recommend buying it though, get it through your local library.
