REVIEW OF ANCHOR BOLTS AND ATTACHMENT HARDWARE SEISMIC DESIGN MANUAL

- Great sci fi read. The originality is so that many movies n shows depicting space must have read the series.
- The Transall Saga is a really good book. It has a lot of action in it like when Mark is in the woods and a buffalo thing chases him. It also has a lot of suspense in it, for example, when he follows the monkey human things to their tribe. I can relate to this book because he had to build a shelter and I used to do that. I think this book is for kids from 10-16 years old. I liked this book a lot. Andrew W.
