The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records. From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth, British imperialism was a catalyst for far-reaching change. The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning, the meaning of British imperialism for the ruled as well as for the rulers, and the significance of the British Empire as a theme in world history. Volume III of The Oxford History of the British Empire covers the long nineteenth century, from the achievement of American independence in the 1780s to the eve of world war in 1914. This was the period of Britain's greatest expansion as both empire-builder and dominant world power. The volume is divided into two parts. The first contains thematic chapters, some focusing on Britain, others on areas at the imperial periphery, exploring those fundamental dynamics of British expansion which made imperial influence and rule possible. They also examine the economic, cultural, and institutional frameworks which gave shape to Britain's overseas empire. Part 2 is devoted to the principal areas of imperial activity overseas, including both white settler and tropical colonies. Chapters examine how British interests and imperial rule shaped individual regions' nineteenth-century political and socio-economic history. Themes dealt with include the economics of empire, imperial institutions, defence, technology, imperial and colonial cultures, science and exploration. Attention is given not only to the formal empire, from Australasia and the West Indies to India and the African colonies, but also to China and Latin America, often regarded as central components of a British 'informal empire'.

This volume is the third annotated bibliography on this subject area to be compiled by these authors. The first, published by Gordon and Breach, Science Publishers, in 1971, was entitled AN ANNOTATED BIBLIOGRAPHY ON DIVING AND SUBMARINE MEDICINE. It covered material published during the 1960's. The second volume, entitled UNDERWATER MEDICINE AND RELATED SCIENCES: A GUIDE TO THE LITERATURE, published in 1973 by Plenum Press, covered primarily material published during 1970 and 1971, with some material from 1968 and 1969. The present volume covers material published during 1972 and 1973, but here again some earlier material has been included. The purpose of these annotated bibliographies is to make available a large proportion of the published material, in abstract form, indexed in such a manner as to make it possible to compile a reasonably complete annotated bibliography on any specific subject area in the field. It is possible thus to learn where the work is being done, by whom, and how extensively. Also, it becomes obvious

## REVIEW OF 3 EXPEDITION MANUAL

- This gorgeous edition of "THE BLACK ARROW" is a reissue of the book first published by Charles Scribner's Sons ,with N.C. Wyeth illustrations ,in 1916.Now,it is one of the splendid Scribner Illustrated Classics reissued by the Simon&Shuster Children's Publishing Division through its imprint ATHENEUM BOOKS FOR YOUNG READERS.Originally published in 1888,"THE BLACK ARROW" is a wonderful reading for people of all ages,not just for adolescents.This story was first serialised in YOUNG FOLKS(a popular british magazine for boys where "TREASURE ISLAND" also appeared for the first time) in seventeenth weekly instalments and was a success.Set in the reign of Henry VI during the troubled years of the War of the Roses,this Stevenson's novel was, at the time,a popular adventure story.Colorful characters grace this book.The hero,Richard Shelton, was imagined by Stevenson.But there is a historical personage described in the novel:the Duke of Gloucester(later Richard III).This edition's beautiful endpapers,frontspiece, and other fourteenth illustrations were painted by one of the greatest american illustrators of all time:NEWEL CONVERS WYETH(1882-1945).A giant as big as Robert Louis Stevenson(1850-94).
- This is a very needed message for the children of God today. Do not give in to temptation as it will multiply and lead you on a path away from God.
