So, what are you waiting on? Beginning your reading journey today with digital Hisilicon Wikipedia publication downloads. With so many titles and categories to pick from, the possibilities are limitless. Delighted reading!

### **REVIEW OF HISILICON WIKIPEDIA**

- The essays in this new book manage to avoid both pat

conclusions and unattractive self-pity that the subject matter could make for the author so easy to slide into. Many writers have taken as their subject matter oddball upbringings, eccentric family, and the feeling of being a perennial outsider, but most come across, at least part of the time, as too self-deprecating and too unaware that they aren't the only ones with these problems. Not so here. In one essay, Sedaris writes about wanting to emulate a cool boy in his grade, even though that kid bullied him, and ends by admitting that he continued to wonder about him long after they parted ways. Most writers would try to end on some note that they've learned their "lesson" but Sedaris effortlessly avoids such pat conclusions. Because of this, even the most personal of the pieces can never be labeled as "naval gazing." If anything, some of the pieces have enough emotional wallop that their shortness is frustrating. Particularly, I wanted to know if and how he ever reconciled with his father, who threw him out of the house (without explicitly saying so) for being gay. But then, I'm not the writer here. I found this book to be more mature than the previous two. There is still plenty of almost-too-unbelievable family anecdotes and gross-out descriptions, but for reasons I can't fully explain, the essays seemed to move beyond just mugging for laughs. Highly recommended.

- The newest release by Sedaris failed to make me laugh as hard as his other titles. In *Dress Your Family*, he tackles personal issues relating to his family. I appreciated the courage this took, and within the pages I felt that he carried a bit of guilt for turning the lives of his brothers, sisters, and parents into something as public as a book. As I moved through the book, it read at a very monotone level. Rarely did a surprise catch me off guard, but there were moments when I cackled from a silly situation. Sedaris' writing and style is evolving, and some may say maturing. Here with *Dress Your Family*, I believe we're witnessing a turning point. I'm very curious to see what he delivers next.
