LAST IDEAS

On the whole, we believe that Rubens Ediz Italiana is worth a read, regardless of some small imperfections. The unique storytelling style, relatable characters, and story twists make it a rewarding addition to your shelf. So, if you're searching for a fascinating read, Rubens Ediz Italiana is definitely worth thinking about.

REVIEW OF RUBENS EDIZ ITALIANA

- This notorious book is a thinly-veiled antisemitic attack on Jews claiming they are behind a vast conspiracy to undermine the United States and deliver it to the communist Soviet Union. It has clearly attracted rave reviews from Holocaust deniers and other Jew-bashing conspiracy theorists.

- The aging Russian prince and noted anarchist writer, Peter Kropotkin, (an actual historical figure) is on his deathbed when he is given the chance to start life over as a young man, in America, in fact, in Richmond, Virginia, in 1999. In his pocket he carries a watch which is actually a time

machine. That's the science-fiction aspect of the book. The rest is philosophy, a deep examination of choice and free will and what makes a person really free. Time-travel of course is loaded with paradox, as all sci-fi readers know. To visit the past (or the future) is to change it irrevocably. Kropotkin's time travel starts out as a lark, like Rip Van Winkle waking up in a new time, meeting some cool characters, finding a girlfriend, learning a new culture. But soon more people from the past are turning up. The lark

begins branching off into a number of alternative futures, not all pleasant. Things start to get messy. The last third of the book turns very dark, as our hero learns that escape is not freedom and that choices may be painful but necessary. To time-travel out of slavery in Virginia may be easy. To escape from oneself, maybe not. There is so much packed into this book that I cannot truly say I understood it all. It was profound, yet at the same gracefully written, lucid, easy to follow, and often hilarious. I recommend it.
