REVIEW OF BITTER LEMONS

- This second installment in Burroughs' Martian series surprisingly outshines A Princess of Mars. Sporting even more action than the first novel, it makes good use of ideas made mention in Princess. Add to it a cliff-hanger ending even more "edgy" than before, and you've got one of Burroughs' best.

- The movie was good but forget about connecting that flick to this book. This book was first written in 1975 - NEARLY 30 YEARS AGO! If you have ever read "true story" UFO books before, then you have probably come across a lot of recent material that seems more plausible like "The Gulf Breeze Sightings by Ed Walters" and "Fire in the Sky: The Walton Experience by Travis Walton" but both of these books have since had their day - they have been pretty much debunked and are widely known as absolute hoaxes, if not downright fabrications at best. After 30 years, The Mothman Prophecies is still a SOLID story because of the amount of witnesses to the events, biological medical evidence and the final catastrophe that ended the phenomena. The only case that debunkers have against this story is that the Mothman could be an owl or a large species of crane, but eyewitnesses deny that it is any such animal. In fact the Mothman is not part of any category of

cryptozoology. Much like the chupacabra, it is a zoological impossibility so the only possible realm of existence for this thing is genetic experimentation, an apparition or extraterrestrial. The latter category is what the Mothman falls into and this book is all about just that. Keel went to Point Pleasant West Virginia in 1966 and 1967 to investigate a series of unexplained happenings that the towns people were experiencing at the time. Most importantly was the sighting of a creature that could only be described as some sort of a flying monster. This creature, dubbed the Mothman, was new to Point Pleasant but not to the history books and so Keel went digging around to see what he could find. While doing this he unearthed an astonishing amount of information on this mythical beast. At the same time there was some UFO activity in the area and Keel was the one who made the connection between the Mothman and the UFOs. Essentially "The Mothman Prophecies" is a book that documents and reports on a HUGE UFO FLAP in Point Pleasant, West Virginia. Coupled with this event where strange lights in the sky, encounters with the unknown, men in black, psychic phenomena, cattle mutilations and an impeding of Keel's investigation by possible secret government agencies. Keel is only one of many people that were exposed to these events and although the book must be treated skeptically, it does open your mind because there is simply too much activity taking place to call it a hoax or work of fiction. Various people seemed to be attacked by the Mothman. Even an ambulance used for blood donation was

chased and attacked by the thing. In short this is an excellent UFO book that still stands the test of time. For years we have been waiting for its re-release and the movie has helped spur that along. When you compare this book to other true stories about UFOs you really begin to appreciate its value. I have read a lot of UFO books and books about strange encounters but this is the one that really got me gripped from start to finish. After reading this book it is very hard to see it as anything less than real and truthful. "Occam's Razor" tells us that in explaining a thing no more assumptions should be made than are necessary - but when applied to this book you must explain how everything occurred in this one region to so many people. Keel not only researches the Mothman but documents everything that happened at Point Pleasant during that fateful period of time. It is a whopping story that is highly intriguing, absolutely baffling, horrific and extremely hard to dismiss as a work of fiction. It is not until you see the Mothman documentary that is on the movie DVD that you actually get to put faces to the people in this book and hear them talk about their experiences. This is first rate investigative reporting and an amazing story to boot that can't simply be dismissed as all in Keel's mind, or a hoax or fabrication. Strange things went on in Point Pleasant, West Virginia and the people were scared. Then it ended with a massive tragedy and the supernatural phenomena stopped. There is no doubt that something completely out-of-this-world occurred at Point Pleasant and you should not miss reading about it. Exceptionally riveting journalism!
