Remember, reading testimonials can help you make notified decisions about what to check out next and can expose you to new authors and genres you could not have thought about previously.

REVIEW OF PRINCIPLES OF ECONOMICS MANKIW SOLUTIONS

- If the modern world is an expressway leading noplance (i.e. utopia), where can we find an offramp leading in a different direction, i.e. someplace? You are way too busy, too much in debt, too little related to your family and friends. You consider yourself a Christian, but what that means is that you may go to church on Sunday (if you have the time and the energy). You suspect that if you really believed that Jesus knew what he was

talking about your life might look a lot different than it does. Is there a way out of the rat race to something more lasting and meaningful? You might consider Sine's little book another in the genre of self-help tomes focused on developing a personal mission statement and enhancing both your own individualism and your consumerist, careerist ambitions. In reality the authors are wanting to subvert all of that. Sine's countercultural goals here are community, mission, and a vital, life-changing relationship with God. If you are looking for that off-ramp then begin here.

- Any person, young or old who has the faintest interest in Christianity should read this book. I first read it at least 10 years ago, while serving in the U.S. Army. It is one of those books that you find yourself thinking about for weeks after you've read it. If you're curious, if you're just interested in the classics of religious literature, buy this book.
