REVIEW OF KIRPAL SINGH AUTO LE ENGINEERING VOL 2

- How is it that new discoveries are made in science? Well Judson shows us that it is hard work as well as fortuitous circumstances which create new ideas. Mr. Judson is somehow able to draw from nearly all the scientific fields to relate his ideas. The book covers many different disciplines and shows that underlying all of them are discoveries waiting to be found and understood. His examples are refreshingly beautiful and amazing. I found myself captivated from the start. In some ways reading this book has enabled me to form a more concise mental picture of my own searching and feel at ease with the slow pace of my discoveries. The greatest discoveries in our history come only after significant effort. I would encourage anyone in the sciences or becoming a scientist, or even just a science lover to read this book and enjoy the fresh ideas and insights Mr Judson is able to impart.

- This is a very easy to read and follow book on the dos and don'ts of a hospital visit.
