REVIEW OF FERGUSON TO 30 ONLINE MANUAL

- This is a must have for fans of Florence King. She is the closest thing we have nowadays to H.L. Mencken. These are short columns she wrote for National Review over several years, called "Misanthrope's Corner." She is really not misanthropic, but rather one who hates cant and does not suffer fools gladly. They all have King's characteristic sharp wit and ability to turn a phrase. Ms. King is an agnostic, but she has an almost Calvinistic sense of the fallenness of human nature. There is a cool realism and

acceptance of things as they really are. Do-gooders and uplifters get short shrift in her writing. She shares H.L. Mencken's amusement at the absurdities of modern life and the colorful characters American society comes up with. She also shares Mencken's individualism and refusal to bend to authority. A few before bedtime should help you go to sleep with a smile on your face.

- My review is not about the book. This is one of my textbooks I needed for my course and I was glad that Amazon had it in stock.

However I chose to pay highest shipping amount to express delivery for next day, (which happens to be Saturday) so that I have time to review chapter before school started, it did not arrive that Saturday. What is purpose was next day delivery if you don't receive the product on time? I think I paid about \$25 for one book when there was an option to receive Monday delivery for much less (\$10, I think). The book arrived on Monday after my school started and I did not have a book to take to school. Amazon owes me money!
