REVIEW OF CHAPTER 4 AP STATISTICS TEST

- Eragon was under our tree as a gift. I curled up with my son and read it out loud. He was entranced and would scarcely let me put the book down. We finished all 507 pages this morning. What an extraordinary book. My kid would not let me put it down. I confess to being sucked into the adventures of Eragon and Saphira. The young author is a gifted storyteller. Court Lemke
- A very well done book for preteens and above. While not on a par with Harry Potter, it certainly is another reason kids will want to read. Totally unlike most drivel promulgated for this age group.
